

000-330 IBM certifications III

IBM Power Systems Technical Support for AIX and Linux

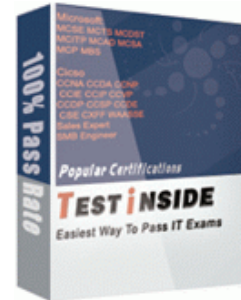

Practice Exam: 000-330 Exams

Exam Number/Code: 000-330

Exam Name: Power Systems Technical Support for AIX and Linux

Questions and Answers: 64 Q&As

([IBM certifications III](#))

Exam : [000-330](#)

"Power Systems Technical Support for AIX and Linux", also known as 000-330 exam, is a IBM certification. With the complete collection of questions and answers, TestInside has assembled to take you through 64 Q&As to your 000-330 Exam preparation. In the 000-330 exam resources, you will cover every field and category in IBM Certification helping to ready you for your successful IBM Certification.

Quality and Value for the 000-330 Exam TestInside Practice Exams for IBM **IBM certifications III** Certification 000-330 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

TestInside provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 000-330 Exam.

000-330 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the IBM certifications III product experts, included the current newest 000-330 examination questions.

3. 100% Guarantee to Pass Your IBM certifications III exam and get your IBM certifications III Certification.

If you do not pass the IBM Certification 000-330 exam (Power Systems Technical Support for AIX and Linux) on your first attempt using our TestInside testing engine and pdf file, we will give you a FULL REFUND of your purchasing fee.

use TestInside 000-330 Q&A ensure you pass the exam at your first try.

TestInside professional provide IBM certifications III 000-330 the newest Q&A, completely covers 000-330 test original topic. With our complete IBM certifications III resources, you will minimize your IBM certifications III cost and be ready to pass your 000-330 tests on Your First Try, 100% Money Back Guarantee included!

[IBM 000-330](#) Test belongs to one of the IBM certifications III certified test, if needs to obtain the IBM certifications III certificate, you also need to participate in other related test, the details you may visit the [IBM certifications III](#) certified topic, in there, you will see all related IBM certifications III certified subject of examination.

TestInside Testing Engine Features

Comprehensive questions and answers about 000-330 exam

000-330 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

000-330 exam questions updated on regular basis

Same type as the certification exams, 000-330 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 000-330 exam demo before you decide to buy it in Test-Inside.com.

Note: This pdf demo do not include the question's picture.

Exam : IBM 000-330

Title : Power Systems Technical Support for AIX and Linux

1. HP has a product offering called Serviceguard. What is the comparable IBM product for Power systems?

- A. Service Elite
- B. IBM Systems Director
- C. PowerHA Cluster Manager
- D. Flexible Service Processor

Answer: C

2. A customer is using IVM to manage four partitions on a Power 550. Which statement is true regarding management of I/O resources for each partition?

- A. Virtual disks and tape can be allocated using VIOS.
- B. Virtual disks and Ethernet resources can be allocated.
- C. Virtual disks and tape can be assigned without the use of a VIOS partition.
- D. Virtual disks can be allocated via the VIOS and the Integrated Virtual Ethernet must be used.

Answer: B

3. A customer has several partitioned 570s. Their energy costs are very high. They are investigating ways to save energy. Which of the following Power Systems capabilities will reduce energy usage with minimal user interruption?

- A. Dynamic LPAR
- B. Partition Load Manager
- C. Processor Core Nap Mode
- D. Live Partition Mobility

Answer: C

4. A customer is considering migrating to a new Power server. Which of the following is required to accurately estimate the server capacity requirements?

- A. User growth rate, processor speed, cache hits
- B. User and data growth rate, current utilization
- C. Current utilization, read/write ratio, I/O wait latency
- D. Data growth rate, network bandwidth capacity, storage capacity

Answer: B

5. A customer only has POWER4 p650 servers running LPARs in their environment. They are evaluating a Power 550 to deploy a new application. Which of the following is a unique consideration when integrating the 550?

- A. HMC support
- B. SWMA contracts
- C. Networking protocols
- D. Racking requirements

Answer: A

6. What documentation is typically used in the Solution Assurance process?

- A. Essentials guide, order checklist, customer contract
- B. Trigger criteria, product checklist, discussion guide
- C. Maintenance guide, product owners manual, terms reference

D. Product cookbook, best practices reference, implementation primer

Answer: B

7. A company has a large Oracle ERP application on a 4-core POWER5+ 570 system and is evaluating a new POWER6 system. They estimate growth needs of 15% in processing power and 15% in RAM to cover additional users over the next 1 years. Which of the following will provide room to grow beyond their needs at least cost?

A. 5-core 570

B. 8-core 550

C. 4-core 570

D. 6-core 550

Answer: D

8. Power Trending, Power Saver Mode, Power Capping and Nap Mode are part of which of the following?

A. IBM Service Agent

B. IBM Energy Star Rating

C. IBM Performance Toolbox

D. IBM EnergyScale Technology

Answer: D

9. A customers defective application frequently causes an LPAR to crash due to memory corruption. Which feature of POWER6 and AIX 6.1 can help the application developer resolve this problem?

A. AIXPert

B. Trusted AIX

C. Storage keys

D. Encrypted file system

Answer: C

10. Which of the following is an advantage of POWER5/6 systems capabilities compared to POWER4?

A. LPAR

B. WPAR

C. VIOS

D. PHYP

Answer: C
