

000-701 DB2

IBM ibm db2 udb v8.1 database admin for linux unix&windows

Practice Exam: 000-701 Exams

Exam Number/Code: 000-701

Exam Name: ibm db2 udb v8.1 database admin for linux unix&windows

Questions and Answers: 140 Q&As

([DB2](#))

Exam : [000-701](#)

"ibm db2 udb v8.1 database admin for linux unix&windows", also known as 000-701 exam, is a IBM certification. With the complete collection of questions and answers, TestInside has assembled to take you through 140 Q&As to your 000-701 Exam preparation. In the 000-701 exam resources, you will cover every field and category in IBM Certification helping to ready you for your successful IBM Certification.

Quality and Value for the 000-701 Exam TestInside Practice Exams for IBM **DB2** Certification 000-701 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

TestInside provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 000-701 Exam.

000-701 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the DB2 product experts, included the current newest 000-701 examination questions.

3. 100% Guarantee to Pass Your DB2 exam and get your DB2 Certification.

If you do not pass the IBM Certification 000-701 exam (ibm db2 udb v8.1 database admin for linux unix&windows) on your first attempt using our TestInside testing engine and pdf file, we will give you a FULL REFUND of your purchasing fee.

use TestInside 000-701 Q&A ensure you pass the exam at your first try.

TestInside professional provide DB2 000-701 the newest Q&A, completely covers 000-701 test original topic. With our complete DB2 resources, you will minimize your DB2 cost and be ready to pass your 000-701 tests on Your First Try, 100% Money Back Guarantee included!

[IBM 000-701](#) Test belongs to one of the DB2 certified test, if needs to obtain the DB2 certificate, you also need to participate in other related test, the details you may visit the [DB2](#) certified topic, in there, you will see all related DB2 certified subject of examination.

TestInside Testing Engine Features

Comprehensive questions and answers about 000-701 exam

000-701 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

000-701 exam questions updated on regular basis

Same type as the certification exams, 000-701 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 000-701 exam demo before you decide to buy it in Test-Inside.com.

Note: This pdf demo do not include the question's picture.

Exam : IBM 000-701

Title : IBM DB2 UDB V8.1 DataBase Admin For Linux Unix&Windows

1. Which of the following statements is required to register a federated database source?

- A. CREATE VIEW
- B. CREATE WRAPPER
- C. CREATE TRANSFORM
- D. CREATE TYPE MAPPING

Answer: B

2. Which of the following DB2 utilities can insert data into a view?

- A. LOAD
- B. UPLOAD
- C. IMPORT
- D. LOADVIEW

Answer: C

3. Instances that are down are reported in the Health Center as which of the following alert states?

- A. Alarm
- B. Normal
- C. Warning
- D. Attention

Answer: D

4. A DBA has created three related backup tasks in the Task Center. After all three of these tasks are completed, a fourth task must be run. Which of the following describes how the DBA can automate the running of the fourth task based on the results of the first three tasks?

- A. Indicate on the schedule for the fourth task that it is to begin when the first three tasks are completed.
- B. Set a notification on the first three tasks that sends a note to the DBA indicating that the fourth task can be initiated.
- C. Create a grouping task for the three backup tasks. Create a task action for the fourth task to be run on the completion of the group.
- D. When creating the fourth task, indicate on the Success Code Set field that the first three tasks must run successfully before running this one.

Answer: C

5. Which two of the following are only possible using a redirected restore?

- A. Redefining table space containers
- B. Replacing a damaged recovery history file
- C. Recovering table spaces in roll-forward pending
- D. Specifying an alternate log path for roll forward
- E. Restoring the database onto a different server with the same operating system

Answer: AE

6. Which of the following will the REORGCHK command display?

- A. Only packages that need to be rebound
- B. Only tables that need to be reorganized
- C. Information to determine which tables need to be reorganized
- D. The timestamp indicating the last time each table was reorganized

Answer: C

7. Given the following DB2DIAG.LOG entry:

"Crash Recovery is needed."

and the database configuration parameter AUTORESTART is set to off.

Which of the following would be required to initiate crash recovery?

- A. CONNECT TO <database-alias>
- B. RESTART database <database-alias>
- C. RECOVER database <database-alias>
- D. RESTORE database <database-alias>

Answer: B

8. Given an application with the embedded static SQL statement:

```
INSERT INTO admin.payroll (employee, salary) VALUES ("Joe Smith",30000)
```

Which two of the following privileges are required to successfully bind the application?

- A. ALTER
- B. INSERT
- C. UPDATE
- D. BINDADD
- E. EXECUTE

Answer: BD

9. Given the following command:

How many bufferpools are in the inventory database?

- A. 0
- B. 1
- C. 2
- D. 3
- E. 4

Answer: B

10. To examine the exhibit, press the exhibit button.

Given the following statement:

```
SELECT id, deptname, manager  
FROM staff, org  
WHERE dept=deptnumb  
ORDER BY deptname
```

Which operator in the Visual Explain is performing the ORDER BY?

- A. SORT(5)
- B. SORT(11)
- C. SORT(19)
- D. FILTER(15)

Answer: A

11. Which of the following is supported when LOGRETAIN is OFF and USEREXIT is OFF?

- A. Log archiving
- B. Crash recovery
- C. Rollforward recovery
- D. Infinite active logging

Answer: B

12. Which two of the following DB2 commands can be used independently to update the statistical information used by the optimizer when choosing an access path?

- A. REORG
- B. IMPORT
- C. REBIND
- D. RUNSTATS
- E. CREATE INDEX

Answer: DE

13. Given the following piece of a LIST APPLICATIONS output:

```
Auth Id ApplicationApplApplication Id DB # of
Name Handle Name Agents -----
CERTPAYROLL.EXE7*LOCAL.DB2.991004124355 STAFF 1
```

Which of the following commands will terminate the client application's connection?

- A. KILL APPLICATION (7)
- B. FORCE APPLICATION (7)
- C. DISCONNECT APPLICATION (7)
- D. KILL APPLICATION payroll.exe
- E. FORCE APPLICATION payroll.exe
- F. DISCONNECT APPLICATION payroll.exe

Answer: B

14. Given the following statement:

```
CREATE TABLESPACE dms1 MANAGED BY DATABASE USING (FILE 'dms01' 1024K)
```

How many pages will be created for the table space?

- A. 128
- B. 256
- C. 512
- D. 1024

Answer: B

15. Given the following tables:

Referential integrity must be supported between parent table CANDIDATE and dependent table TEST_TAKEN. Which of the following unique constraints can be used to support this referential integrity?

- A. Foreign key on table CANDIDATE
- B. Primary key on table CANDIDATE
- C. Foreign key on table TEST_TAKEN
- D. Primary key on table TEST_TAKEN

Answer: B

16. On which of the following event types can a WHERE clause be used to filter the data returned by the event monitor?

- A. TABLES
- B. DEADLOCKS
- C. TABLESPACES
- D. CONNECTIONS

Answer: D

17. Which of the following is required to specify the output data during an EXPORT?

- A. Union
- B. Key range

- C. Equi-join
- D. Fullselect

Answer: D

18. After a successful table space restore command, which of the following states will the table space be in?

- A. Restore pending
- B. Recovery pending
- C. Restore in progress
- D. Roll forward pending

Answer: D

19. Given an application with the embedded static SQL statement:

```
INSERT INTO admin.payroll (employee, salary) VALUES ("Becky Smith",80000)
```

Which of the following privileges must a user hold to run the application?

- A. ALTER on the table
- B. INSERT on the table
- C. DBADM on the database
- D. EXECUTE on the package

Answer: D

20. Assuming a user has CREATETAB privileges, which of the following privileges will allow the user to create a table T2 with a foreign key that references table T1?

- A. SYSCTRL
- B. SYSMANT
- C. UPDATE on table T1
- D. CONTROL on table T1

Answer: D
