Cisco Lifecycle Services Advanced Wireless(LCSAWLAN)

Practice Exam: 646-590 Exams

Exam Number/Code: 646-590

Exam Name: Lifecycle Services Advanced Wireless(LCSAWLAN)

Questions and Answers: 70 Q&As

([Others](#))

Exam : [646-590](#)

"Lifecycle Services Advanced Wireless(LCSAWLAN)", also known as 646-590 exam, is a Cisco certification. With the complete collection of questions and answers, TestInside has assembled to take you through 70 Q&As to your 646-590 Exam preparation. In the 646-590 exam resources, you will cover every field and category in Cisco Certification helping to ready you for your successful Cisco Certification.

Quality and Value for the 646-590 Exam TestInside Practice Exams for Cisco **Others** Certification 646-590 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

TestInside provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 646-590 Exam.

646-590 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the Others product experts, included the current newest 646-590 examination questions.

3. 100% Guarantee to Pass Your Others exam and get your Others Certification.

If you do not pass the Cisco Certification 646-590 exam (Lifecycle Services Advanced Wireless(LCSAWLAN)) on your first attempt using our TestInside testing engine and pdf file, we will give you a FULL REFUND of your purchasing fee.

use TestInside 646-590 Q&A ensure you pass the exam at your first try.

TestInside professional provide Others 646-590 the newest Q&A, completely covers 646-590 test original topic. With our complete Others resources, you will minimize your Others cost and be ready to pass your 646-590 tests on Your First Try, 100% Money Back Guarantee included!

[Cisco 646-590](#) Test belongs to one of the Others certified test, if needs to obtain the Others certificate, you also need to participate in other related test, the details you may visit the [Others](#) certified topic, in there, you will see all related Others certified subject of examination.

TestInside Testing Engine Features

Comprehensive questions and answers about 646-590 exam

646-590 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

646-590 exam questions updated on regular basis

Same type as the certification exams, 646-590 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 646-590 exam demo before you decide to buy it in Test-Inside.com.

Note: This pdf demo do not include the question's picture.

Exam : Cisco 646-590

Title : Cisco Lifecycle Services Advanced Wireless(LCSAWLAN)

1. Which of these activities comprises the service component of WLAN Site Readiness Assessment (RF Survey)?

A. Conduct Customer Site Survey, Perform Site Gap Analysis, Develop Site Requirements Specification Report, Gather and Verify Customer Network Information, Perform Gap Analysis

B. Collect and Verify Information About Current Operations Support Infrastructure, Identify Customer Support for WLAN, Analyze Customer Operational Infrastructure

C. Perform Automated Scan of Ports To Determine Potential Vulnerabilities; Produce Network Map of Devices, Operating System, and Services Being Offered To the Network; Research and Confirm Registration of Target IP Address Space

D. Execute a Series of System Performance Analyses To Provide a Holistic View of the Converged Network of the Customer, Perform an Infrastructure Audit, Complete Security Review of WLAN Infrastructure

Answer: A

2. Which document is a prerequisite to developing a successful Migration Plan?

A. Business Plan

B. System Readiness Report

C. Proof of Concept Report

D. High Level Design

E. Low Level Design

Answer: E

3. Consider these activities: "Security review of the WLAN infrastructure", "Performing an infrastructure audit", and "Creating a performance baseline and executing a series of system performance analyses to provide a holistic view of the converged network of the customer". Which one of these service components involves these activities?

A. Security Administration

B. Operations Assessment

C. Security Assessment

D. Technology Assessment

E. Business Case Alignment

Answer: D

4. Select the task that is a part of Staging Plan Development in the design phase.

A. Identify Staff Development Requirements

B. Identify Hardware and Software Implementation Tasks and Checklist

C. Deliver Detailed Design Presentation

D. Host Implementation Kickoff Meeting

E. Determine Critical Timelines

F. Determine Cisco and Partner Roles and Responsibilities

Answer: B

5. Which three of these tasks occur in Incident Management? (Choose three.)

A. Define Service Level Requirements and Priority for Each Device

B. Devise and Recommend Workaround Solution if Means of Resolving Is Unknown

C. Correlate and Analyze Symptoms To Determine Probable Cause

- D. Establish Escalation Notification Plan
- E. Gather Symptom Information Including Traces, Logs, and Events
- F. Populate Ongoing Support Handoff Kit

Answer: BCE

6. Which one of these describes some of the common challenges in the prepare phase of a wireless project?

- A. Identify key stakeholders and business owners for WLAN Business Requirement Development workshop.
- B. Assess high-level design, BOM, and system technical requirements.
- C. Survey all environmental, RF, and physical details of specified sites.
- D. Gather information about customer network, including network architecture, topologies, usage requirements, design goals, and security policy.

Answer: A

7. During Implementation Plan Development, which three of these templates and tools are leveraged to complete the tasks of "reviewing network and site remediation plans and execution status", "identifying implementation risk", and "creating site-specific risk management plans"? (Choose three.)

- A. Low Level Design
- B. WLAN Project Plan
- C. Escalation Plan
- D. Operations Support Plan
- E. Site Readiness Assessment Report
- F. Network Implementation Plan

Answer: AEF

8. Which two templates, tools, or reference materials are used in the Business Case Development service component of the prepare phase? (Choose two.)

- A. Income Statement
- B. ROI Required Information Checklist
- C. Financial Justification Case Study
- D. Preliminary Discovery Document-Gap Analysis
- E. Value Assessment Worksheet
- F. Statement of Change in Financial Position

Answer: BC

9. Which three templates or tools are important in creating a site-specific network implementation plan? (Choose three.)

- A. Operations Plan
- B. Staging Plan
- C. Low Level Design
- D. Network Implementation Plan
- E. Acceptance Test Plan
- F. Site Readiness Assessment Report

Answer: CDF

10. What are two of the service components of the plan phase for WLAN? (Choose two.)

- A. Conduct Planning Project Kickoff Meeting
- B. Complete System Requirements Validation
- C. Complete the Proposal Development and Deliver Proposal for Customer
- D. Conduct Proof of Concept
- E. Complete Business Case Development
- F. Complete Implementation Plan Development

Answer: AB

11. Drag the activities on the left into the correct order on the right of the Migration Plan Development service component.

Answer:

12. Which of these tasks is associated with System Acceptance Testing?

- A. Define Project Visibility Progress Reports and Procedures
- B. Verify that Escalation Path Is in Place for Difficulties with Test Cases. Conduct a Physical Inspection with Customer Representative of the Site Workspace To Ensure that Installation Occurred Under Relevant Standards
- C. Define Technical Escalation Procedures and Define Change Order Escalation Procedures
- D. Monitor Availability of Critical Network Elements and Develop Backup and Recovery Plan
- E. Produce Service Level Reporting Results and Analyze Process Exceptions

Answer: B

13. Which three service components are included in the optimize phase for WLAN? (Choose three.)

- A. Change Management
- B. Security Assessment
- C. Operations Assessment
- D. Security Administration
- E. Operations Readiness Assessment
- F. Technology Assessment

Answer: BCF

14. You, as a Cisco partner, are implementing a Voice over WLAN project for a large Enterprise Campus. Which of these skill profiles should be the lead engineer on this project?

- A. routing expert
- B. Enterprise voice expert
- C. Enterprise WLAN expert
- D. Cisco security expert
- E. switching expert

Answer: C

15. Compiling a Business Case Alignment Report highlights which one of these?

- A. Areas in which current WLAN system is not meeting objectives and requirements identified in the prepare phase
- B. Ensures that the wireless network is ready and technical details are properly specified and implemented to reduce the possibility of errors or delays
- C. Reduces the risk and complications of deploying, managing, and operating wireless network infrastructures
- D. Uncovers operational inefficiencies, improves productivity, and reduces resolution time for technical issues
- E. Produces a network map of devices, operating system, and services being offered to the network
- F. Identifies critical deficiencies by analyzing and reviewing data and comparing test results with current operational requirements

Answer: A
