Exam : [920-125](#)

"NNCDs Succession BCM 3.0 Exam", also known as 920-125 exam, is a Nortel certification. With the complete collection of questions and answers, TestInside has assembled to take you through 58 Q&As to your 920-125 Exam preparation. In the 920-125 exam resources, you will cover every field and category in Nortel Certification helping to ready you for your successful Nortel Certification.

Quality and Value for the 920-125 Exam TestInside Practice Exams for Nortel **NCDS** Certification 920-125 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

TestInside provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 920-125 Exam.

920-125 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the NCDS product experts, included the current newest 920-125 examination questions.

3. 100% Guarantee to Pass Your NCDS exam and get your NCDS Certification.

If you do not pass the Nortel Certification 920-125 exam (NNCDs Succession BCM 3.0 Exam) on your first attempt using our TestInside testing engine and pdf file, we will give you a FULL REFUND of your purchasing fee.

use TestInside 920-125 Q&A ensure you pass the exam at your first try.

TestInside professional provide NCDS 920-125 the newest Q&A, completely covers 920-125 test original topic. With our complete NCDS resources, you will minimize your NCDS cost and be ready to pass your 920-125 tests on Your First Try, 100% Money Back Guarantee included!

[Nortel 920-125](#) Test belongs to one of the NCDS certified test, if needs to obtain the NCDS certificate, you also need to participate in other related test, the details you may visit the [NCDS](#) certified topic, in there, you will see all related NCDS certified subject of examination.

TestInside Testing Engine Features

Comprehensive questions and answers about 920-125 exam

920-125 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

920-125 exam questions updated on regular basis

Same type as the certification exams, 920-125 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 920-125 exam demo before you decide to buy it in Test-Inside.com.

Note: This pdf demo do not include the question's picture.

Exam : Nortel 920-125

Title : NNCDS Succession BCM 3.0 Exam

1. Call Detail Recording on a BCM system can deliver records for which three call conditions? (Choose three.)

- A. DNS
- B. incoming calls
- C. calls associated with account codes
- D. elapsed time between origin of a call and when it was answered

Answer: BCD

2. A BCM system has numerous IP devices that require frequent address assignments. If an IP device (sets and/or PC) is moved and then reconnected to the network in a different location, how can the assignment of a new IP address be automated?

- A. download and execute the Desktop Assistant Pro client
- B. set up the BCM for IP Assignment Manager Wizard
- C. download and execute the Desktop Assistant Pro Admin Edition client
- D. set up the BCM for Dynamic Host Configuration Protocol (DHCP)

Answer: D

3. A BCM 3.0 customer is planning to use the Silent Monitor for Hunt Group feature to allow supervisors to monitor agent calls. When the feature is programmed, the customer intends to select the Silent option for Monitoring Mode. What does this mean for agents when they are on a call and the supervisor monitors the call?

- A. agent receives no notification that the supervisor is monitoring the call
- B. supervisor sees agent's call activity on their display screen, does not hear agent's conversation
- C. agent hears audible tone when the supervisor monitors the call, but the supervisor cannot speak
- D. agent cannot request supervisor assistance while being monitored

Answer: A

4. A remote user has the ability to connect to an ISP and then into a specific route into a BCM that is configured for IPSec Remote User. The remote user can also print locally even while connected remotely to the BCM. What is this functionality known as?

- A. dual routing
- B. dual tunneling
- C. split tunneling
- D. split routing

Answer: C

5. Call Detail Recording (CDR) has been set up to capture data from multiple BCM systems. What happens when the assigned disk space that was set for CDR nears capacity?

- A. new files are NOT captured until disk space becomes available
- B. the oldest files are automatically deleted until free space minimums are reached
- C. the oldest files are automatically sent to an archive file until free space minimums are reached
- D. new files are buffered into a holding file and CANNOT be processed until disk free space becomes available

Answer: B

6. An engineer is planning a BCM 3.0 configuration. The engineer is recommending that four DSM32+ units be

included in the system to support call needs. What is the minimum number of DS-30 resources the engineer should plan on to support this configuration?

- A. 1
- B. 4
- C. 6
- D. 8

Answer: B

7. A BCM 2.5 customer has configured the maximum 500 destination codes for their system. If the customer upgrades to BCM 3.0, how many destination codes could be configured?

- A. 500
- B. 750
- C. 1000
- D. 1200

Answer: A

8. A BCM 2.5 customer is running an application that routes on a primary route and an alternate overflow route. The customer has a need to increase their overflow capability for this application and is planning an upgrade to BCM 3.0. How many total routes, including the primary, can the customer utilize after the upgrade to 3.0?

- A. 3
- B. 4
- C. 7
- D. 12

Answer: B

9. IPsec tunneling protocol on a BCM provides which three features? (Choose three.)

- A. Password storage on Contivity client
- B. IP address translations via encapsulation
- C. VPN client support from a remote computer with Contivity VPN client installed
- D. Branch Office support that allows IPsec connection between two private networks

Answer: BCD

10. A BCM administrator wants to supervise and distribute IP addresses for IP sets from a central location. The administrator also does not want to distribute the addresses manually. What functionality can be used to meet the administrator's requirements?

- A. Dynamic Host Configuration Protocol (DHCP)
- B. IP Assignment Manager Wizard
- C. Desktop Assistant Pro Admin
- D. Enable BootP server

Answer: A
