Exam : [922-101](#)

"Communication Server 1000 Linux Platform Architecture ", also known as 922-101 exam, is a Nortel certification. With the complete collection of questions and answers, TestInside has assembled to take you through 32 Q&As to your 922-101 Exam preparation. In the 922-101 exam resources, you will cover every field and category in Nortel Certification helping to ready you for your successful Nortel Certification.

Quality and Value for the 922-101 Exam TestInside Practice Exams for Nortel **Other Nortel Certification** Certification 922-101 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

#### **TestInside provide the professional Q&A.**

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the 922-101 Exam.

922-101 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the Other Nortel Certification product experts, included the current newest 922-101 examination questions.

3. 100% Guarantee to Pass Your Other Nortel Certification exam and get your Other Nortel Certification Certification. If you do not pass the Nortel Certification 922-101 exam (Communication Server 1000 Linux Platform Architecture ) on your first attempt using our TestInside testing engine and pdf file, we will give you a FULL REFUND of your purchasing fee.

#### **use TestInside 922-101 Q&A ensure you pass the exam at your first try.**

TestInside professional provide Other Nortel Certification 922-101 the newest Q&A, completely covers 922-101 test original topic. With our complete Other Nortel Certification resources, you will minimize your Other Nortel Certification cost and be ready to pass your 922-101 tests on Your First Try, 100% Money Back Guarantee included!

[Nortel 922-101](#) Test belongs to one of the Other Nortel Certification certified test, if needs to obtain the Other Nortel Certification certificate, you also need to participate in other related test, the details you may visit the [Other Nortel Certification](#) certified topic, in there, you will see all related Other Nortel Certification certified subject of examination.

#### **TestInside Testing Engine Features**

Comprehensive questions and answers about 922-101 exam

922-101 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

922-101 exam questions updated on regular basis

Same type as the certification exams, 922-101 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free 922-101 exam demo before you decide to buy it in Test-Inside.com.

Exam : Nortel 922-101

Title : Communication Server 1000 Linux Platform Architecture

1. You have installed the Linux Base onto a Commercial Off the Shelf (COTS) server that will be configured as a Member Server. You are ready to perform the Security Configuration. All LAN connections are in place and functioning normally.

After connecting through a browser, what is your next step to perform the Security Configuration of this COTS Member server?

- A. Enter the IP address of the Certificate Authority in the address bar of the browser.
- B. Enter the IP address of the Primary Security server in the address bar of the browser.
- C. Enter the FQDN of the COTS Member server in the address bar of the browser.
- D. Enter the FQDN of the Primary Security server in the address bar of the browser.

Answer: C

2. A customer is deploying a Communication Server 1000 RIs. 6.0 High Availability system and would like to know what options for Signaling Server functionality exist.

Which options can the customer deploy? (Choose two.)

- A. CPPM VxWorks-based Signaling Server
- B. CPPM Linux-based Signaling Server
- C. COTS VxWorks-based Signaling Server
- D. COTS Linux-based Signaling Server

Answer: BD

3. A customer is deploying a Communication Server (CS) RIs. 6.0 system. They plan to have a Dell R300 COTS configured as the Primary Security Server and a CPPM configured as a Backup Security Server.

Which statements regarding the roles of the Primary and Backup Security Server are true? (Choose two.)

- A. You must have a Backup Security Server for the CS 1000 network.
- B. The Backup Security Server is automatically promoted to Primary Security Server.
- C. The Primary Security Server cannot be demoted to a member server.
- D. The Backup Security Server automatically handles authentication requests when the Primary is down.

Answer: CD
