

Exam : [Adobe 9A0-082](#)

Title : **Adobe Flex 3 with AIR**

Version : **Demo**

1. You want to play a transition effect whenever you press the enter key. Which of the following triggers will you use?

- A. focusInEffect
- B. hideEffect
- C. creationComplete Effect
- D. moveEffect

Answer: A

2. Which of the following statements are true about the combined layout? Each correct answer represents a complete solution. Choose all that apply.

- A. The combined layout uses the x and y properties of child components for pixel-perfect layouts.
- B. A user can create custom components from the existing components while working with the combined layout.
- C. A user can nest containers to create the sophisticated combined layout.
- D. The containers in the combined layout can hold other containers.
- E. A combined layout property must be set to absolute.

Answer: BCD

3. Which of the following containers is used to arrange its children in a single vertical stack, or column?

- A. ViewStack
- B. VBox
- C. TabNavigator
- D. Accordion

Answer: B

4. Which of the following metadata tags is used to define the allowed data type of each element of an array?

- A. [Bindable]
- B. [DefaultProperty]
- C. [Deprecated]
- D. [ArrayElementType]

Answer: D

5. Which of the following components of the MVC data model is used for handling data interconnectivity in an application?

- A. Controller
- B. View
- C. Architecture
- D. Model

Answer: A

6. Which of the following methods/properties are used in data traversing? Each correct answer represents a complete solution. Choose all that apply.

- A. filterFunctionQ
- B. afterLast
- C. moveNext()
- D. currer

Answer: BCD

7. Which of the following keywords will be used if you want that a method can be accessed without requiring an instantiation of the class to which it belongs? Each correct answer represents a complete solution. Choose all that apply.

- A. function
- B. method
- C. static
- D. package

Answer: AC

8. Which of the following code can be used to add a button component to the stage?

- A. bBtn. emphasized = true;
- B. Btn. emphasized = true;

```
bBtn. addEventListener(MouseEvent.CLICK, Btn_handler)
;
function Btn_handlerO:void
{
bBtn. setStyle("emphasizedSkin, "Button_selectedOverSkin")
;
}
B. bBtn. emphasized = true;
aBtn. emphasized = true;
bBtn. addEventListener(MouseEvent.CLICK, Btn_handler)
;
function Btn_handler(evt: MouseEvent):void
{
bBtn. setStyle("emphasizedSkin, "Button_selectedOverSkin")
;
}
C. bBtn. emphasized = true;
aBtn. emphasized = true;
bBtn. addEventListener(MouseEvent.CLICK)
;
function Btn_handler(evt: MouseEvent):void
{
bBtn. setStyle(emphasizedSkin, "Button_selectedOverSkin")
;
}
D. bBtn. emphasized = true;
aBtn. emphasized = true;
bBtn. addEventListener(MouseEvent, Btn_handler)
;
function Btn_handler(evt: MouseEvent):void
```

```
{  
bBtn.setStyle("emphasizedSkin, Button_selectedOverSkin")  
;  
}
```

Answer: B

9. Which of the following access attributes in ActionScript 3.0 allows access only to the methods of the class itself, and any other class extending this class?

- A. Internal
- B. Public
- C. Protected
- D. Private

Answer: C

10. Which static properties of the XML class determine how they parse and expose data to E4X expressions? Each correct answer represents a complete solution. Choose two.

- A. ignoreComments
- B. ignoreEscape
- C. ignoreString
- D. ignoreWhitespace

Answer: AD

11. What is the default resultFormat when complex data is returned by the <mx.HTTPService> class?

- A. Object
- B. Plain text
- C. Raw XML
- D. ActionScript tree of objects

Answer: A

12. What is the way to control the size and position by anchoring components sides, centers, or baselines

to locations in their container?

- A. Explicit sizing
- B. Percentage-based sizing
- C. Default sizing
- D. Constraint-based layout

Answer: D

13. You allow the users to select more than one item at a time by holding down the Ctrl key while clicking on the items. Which of the following properties will you use to accomplish the task?

- A. allowCtrlSelections
- B. allowMultipleSelections
- C. selectedIndices
- D. selectedItem

Answer: B

14. Which of the following controls is used to allow users to select only one option at a time?

- A. PopUpButton
- B. RadioButton
- C. ToggleButtonBar
- D. LinkButton

Answer: B

15. Based on the following code, what does the XML_URL refer to?

```
var myXML:XML = new XMLQ;  
var XML_URL:String  
=  
var myXMLURL:URLRequest = new URLRequest(XML_URL)  
;  
var myLoader:URLLoader = new URLLoader(myXMLURL)  
;
```

```
myLoader.addEventListener('complete', xmlLoaded)
;
function xmlLoaded(event:Event):void
{
myXML = XML(myLoader.data)
;
trace("Data loaded. '
)
}
```

- A. The XML file name
- B. The name of the dynamic text where the XML will be stored
- C. The XMLfile URL
- D. The SWF path

Answer: C

16. You want to send the HTTP request with the help of a Button component. Which of the following syntaxes should you use used?

- A. <mx: Button label = "Request" click = "service. sendo">
- B. <mx: Button label = "Request" click = service. sendo>
- C. <mx: Button label = "Request" service. sendo>
- D. <mx: Button label = "Request, service. sendo>

Answer: A

17. Which of the following methods and properties of the ArrayCollection class are designed to access data at runtime? Each correct answer represents a complete solution. Choose all that apply.

- A. findAny()
- B. removeAll()
- C. addItemAt(item:Object, inclex:Int)
- D. removeItemAt(index:int)

Answer: BCD

18. Which layout container is the sub class of the Panel container?

- A. ViewStack
- B. TitleWindow
- C. Accordion
- D. Application

Answer: B

19. Which of the following styles are used in the <mx:Label> MXML tag? Each correct answer represents a complete solution. Choose all that apply.

- A. fontSize
- B. fontGridFitType
- C. fontAntiAliasType
- D. font-family

Answer: ABC

20. Which properties are related to the TraceTarget class? Each correct answer represents a complete solution. Choose three.

- A. includeField
- B. includeTime
- C. includeLev
- D. includ

Answer: BC
