

## **COG-132 Cognos 8 BI IBM IBM Cognos 8 BI Metadata Model Developer**

**Practice Exam:** COG-132 Exams

**Exam Number/Code:** COG-132

**Exam Name:** IBM Cognos 8 BI Metadata Model Developer

**Questions and Answers:** 53 Q&As

( [Cognos 8 BI](#) )

Exam : [COG-132](#)

"IBM Cognos 8 BI Metadata Model Developer", also known as COG-132 exam, is a IBM certification. With the complete collection of questions and answers, TestInside has assembled to take you through 53 Q&As to your COG-132 Exam preparation. In the COG-132 exam resources, you will cover every field and category in IBM Certification helping to ready you for your successful IBM Certification.

Quality and Value for the COG-132 Exam TestInside Practice Exams for IBM **Cognos 8 BI** Certification COG-132 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

### ***TestInside provide the professional Q&A.***

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the COG-132 Exam.

COG-132 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the Cognos 8 BI product experts, included the current newest COG-132 examination questions.

3. 100% Guarantee to Pass Your Cognos 8 BI exam and get your Cognos 8 BI Certification.

If you do not pass the IBM Certification COG-132 exam (IBM Cognos 8 BI Metadata Model Developer) on your first attempt using our TestInside testing engine and pdf file, we will give you a FULL REFUND of your purchasing fee.

### ***use TestInside COG-132 Q&A ensure you pass the exam at your first try.***

TestInside professional provide Cognos 8 BI COG-132 the newest Q&A, completely covers COG-132 test original topic. With our complete Cognos 8 BI resources, you will minimize your Cognos 8 BI cost and be ready to pass your COG-132 tests on Your First Try, 100% Money Back Guarantee included!

[IBM COG-132](#) Test belongs to one of the Cognos 8 BI certified test, if needs to obtain the Cognos 8 BI certificate, you also need to participate in other related test, the details you may visit the [Cognos 8 BI](#) certified topic, in there, you will see all related Cognos 8 BI certified subject of examination.

### ***TestInside Testing Engine Features***

Comprehensive questions and answers about COG-132 exam

COG-132 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

COG-132 exam questions updated on regular basis

Same type as the certification exams, COG-132 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free COG-132 exam demo before you decide to buy it in Test-Inside.com.

Note: This pdf demo do not include the question's picture.

Exam : IBM COG-132

Title : IBM Cognos 8 BI Metadata Model Developer

1. In a transitive relationship scenario, what problems exist when reporting from the tables below?

- A. The Order table must be included in each query.
- B. The Order Detail table has conflicting cardinalities.
- C. Outer joins are generated when querying from Customer.
- D. There is more than one possible path between the tables.

Answer: D

2. Which of the following data structures typically contain normalized data?

- A. Cube
- B. Flat file
- C. Operational
- D. Star schema

Answer: C

3. What does a star schema database structure typically consist of?

- A. De-normalized hierarchy of dimension tables and fact tables.
- B. Normalized dimension tables and detailed fact tables.
- C. Normalized dimension tables and summarized fact tables.
- D. De-normalized dimension tables and fact tables.

Answer: D

4. What question should a data modeler answer before accepting this proposed operational data structure?

- A. Should all three tables be consolidated into one?
- B. Should the cardinalities between the tables be reversed?
- C. Are Branch and Employee dimension tables or fact tables?
- D. Is there a direct relationship between Branch and Employee?

Answer: D

5. Which of the following is true regarding the operational data structure illustrated below?

- A. It illustrates a parallel relationship.
- B. It should be consolidated into one table.
- C. It should be examined for a connection trap.
- D. The cardinality between the tables should be reversed.

Answer: C

6. The illustration below represents which of the following data traps?

- A. Bridge
- B. Connection
- C. Parallel relationship
- D. Many-to-many relationship

Answer: C

7. Which of the following objects in the Framework Manager environment acts as a container and provides a unique

name for objects?

- A. model
- B. query item
- C. namespace
- D. query subject

Answer: C

8. In Cognos 8, what are the two distinct model types authors can work with?

- A. OLAP and DMR
- B. Dimensional and DMR
- C. Relational and SAP BW
- D. Relational and Dimensional

Answer: D

9. The database table below would typically be found in what data structure?

- A. Union
- B. Normalized
- C. Operational
- D. Star schema

Answer: D

10. Which of the following is true of an OLAP data structure?

- A. Comprised of normalized dimension and fact tables.
- B. Organizes dimension tables into hierarchies and levels.
- C. Allows "real time" analysis against disparate data sources.
- D. Cardinality between tables is typically configured as inner joins.

Answer: B
