

HP0-244 Certification I

HP Advanced Backup Troubleshooting & Tuning

Practice Exam: HP0-244 Exams

Exam Number/Code: HP0-244

Exam Name: Advanced Backup Troubleshooting & Tuning

Questions and Answers: 64 Q&As

([Certification I](#))

Exam : [HP0-244](#)

"Advanced Backup Troubleshooting & Tuning", also known as HP0-244 exam, is a HP certification. With the complete collection of questions and answers, TestInside has assembled to take you through 64 Q&As to your HP0-244 Exam preparation. In the HP0-244 exam resources, you will cover every field and category in HP Certification helping to ready you for your successful HP Certification.

Quality and Value for the HP0-244 Exam TestInside Practice Exams for HP **Certification I** Certification HP0-244 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

TestInside provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the HP0-244 Exam.

HP0-244 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the Certification I product experts, included the current newest HP0-244 examination questions.

3. 100% Guarantee to Pass Your Certification I exam and get your Certification I Certification.

If you do not pass the HP Certification HP0-244 exam (Advanced Backup Troubleshooting & Tuning) on your first attempt using our TestInside testing engine and pdf file, we will give you a FULL REFUND of your purchasing fee.

use TestInside HP0-244 Q&A ensure you pass the exam at your first try.

TestInside professional provide Certification I HP0-244 the newest Q&A, completely covers HP0-244 test original topic. With our complete Certification I resources, you will minimize your Certification I cost and be ready to pass your HP0-244 tests on Your First Try, 100% Money Back Guarantee included!

[HP HP0-244](#) Test belongs to one of the Certification I certified test, if needs to obtain the Certification I certificate, you also need to participate in other related test, the details you may visit the [Certification I](#) certified topic, in there, you will see all related Certification I certified subject of examination.

TestInside Testing Engine Features

Comprehensive questions and answers about HP0-244 exam

HP0-244 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

HP0-244 exam questions updated on regular basis

Same type as the certification exams, HP0-244 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free HP0-244 exam demo before you decide to buy it in Test-Inside.com.

Exam : HP HP0-244

Title : Advanced Backup Troubleshooting & Tuning

1. Click the Exhibit button.

Which library and tape drive firmware must be used for an ESL9322 with Ultrium 460 tape drives and Data Protector?

- A. Robot firmware 3.40, tape drive firmware F43W
- B. Robot firmware 3.48, tape drive firmware F43W
- C. Robot firmware 3.48, tape drive firmware F3CW
- D. Robot firmware 3.40, tape drive firmware F3CW

Answer: B

2. Click the Exhibit button.

A customer installed Virtual Replicator on a Windows 2000 host. Which backup applications are supported for backing up the Virtual Replicator disks? Select TWO.

- A. HP Data Protector
- B. Legato Networker
- C. Tivoli Storage Manager
- D. CommVault Galaxy
- E. CA BrightStor EB

Answer: BC

3. What is the maximum cable length of an LVD SCSI bus?

- A. 7 m
- B. 12 m
- C. 20,5 m
- D. 25 m

Answer: B

4. What is an advantage of the Cartridge Memory (a memory chip located in the cartridge) of the LTO Ultrium technology (LTO-CM) over previous tape technologies?

- A. It eliminates the need for barcodes and barcode readers in tape libraries.
- B. Data such as tape identity, type, usage and tape contents is read from a chip rather than the system area on tape, which reduces the wear and tear of that particular section.
- C. It contains troubleshooting information from the tape drive which can help to reduce overall repair times.
- D. The Ultrium drive reads data for firmware upgrades from a chip rather than a tape which increases the speed of the upgrade procedure.

Answer: B

5. HP Ultrium tape drives use the ATS (Adaptive Tape Speed) feature. The main purpose of ATS is to increase ____.

- A. buffer capacity by varying the speed of the tape
- B. tape write speed by adjusting the host transfer rate
- C. overall performance by reducing the number of repositions
- D. tape read speed by adjusting the host transfer rate

Answer: C

6. What happens if you connect an HVD (High Voltage Differential) HBA (host bus adapter) to an LVD (Low Voltage

Differential) tape device?

- A. The devices function correctly if you setup unique SCSI IDs and have proper termination.
- B. The devices do not function together and you may damage them.
- C. The devices function correctly after setting up the compatibility mode for the HBA.
- D. The devices do not function together unless you use active termination.

Answer: B

7. Which service should be disabled on Windows systems at operating system level to improve backup performance?

- A. Logical Disk Manager
- B. Removable Tape Service
- C. Removable Storage Manager
- D. Tape Storage Provider

Answer: C

8. Which tool, available at the HP web site, can size and configure the ideal backup solution for DAS, NAS and SAN environments using information you specify?

- A. HP OpenView Data Protector configuration scripiter
- B. Backup Sizing Tool
- C. Enterprise Backup Solution Configuration Matrix
- D. HP StorageWorks Library and Tape Tools

Answer: B

9. Click the Exhibit button.

A customer has one single ESL9326D/DX with 4 DLT8000 drives. Which tape drive is supported for the next drives being installed in this library?

- A. DLT 8000 drives only
- B. SDLT220 or SDLT320
- C. DLT8000, SDLT220 or SDLT320
- D. SDLT220, SDLT320 or Ultrium230

Answer: C

10. Which file types should NOT be selected for backup in compressed mode? Select THREE.

- A. Exchange Server stores
- B. MPEG files
- C. Powerpoint presentations
- D. JPEG files
- E. ASCII (.TXT) files
- F. Post script (.PRN) files

Answer: ABD

11. The DLT tape backward read compatibility of HP SuperDLT drives is possible due to the ____.

- A. Magneto-Resistive Cluster (MRC) technology
- B. additional magnetic read-head
- C. Pivoting Optical Servo (POS) technology
- D. low-dens mode switch

Answer: B

12. Which HP StorageWorks tape drive is the most appropriate choice for enterprise businesses with 150 GB of data to backup?

- A. DAT 24
- B. DAT 72
- C. DLT VS 80
- D. Ultrium 460

Answer: D

13. Disk and tape speed are key factors of a fast backup. Which issue may cause slow backup performance on Veritas Netbackup if you are doing LAN-based backup?

- A. Single mode cables are used instead of multimode cables.
- B. There are DNS resolution delays and wrong entries in the HOSTS file.
- C. Fibre Channel switch cannot be reached over LAN.
- D. Primary and secondary devices are connected to the same switch.

Answer: B

14. A medium business with small workgroups and remote offices needs to backup about 40 GB of data. Which HP StorageWorks tape drive is the most appropriate?

- A. DAT 24
- B. DAT 72
- C. Ultrium 460
- D. SDLT 320

Answer: B

15. SCSI bus termination is _____.

- A. optional
- B. required and there must be one terminator for each device on the bus
- C. required and there must be two terminators, one on each end of the bus
- D. required and done automatically by all SCSI devices

Answer: C
