

HP0-703 Certification II

HP Tru64 UNIX V5 Network Administration

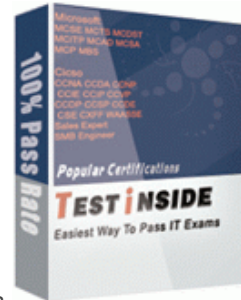

Practice Exam: HP0-703 Exams

Exam Number/Code: HP0-703

Exam Name: Tru64 UNIX V5 Network Administration

Questions and Answers: 112 Q&As

([Certification II](#))

Exam : [HP0-703](#)

"Tru64 UNIX V5 Network Administration", also known as HP0-703 exam, is a HP certification. With the complete collection of questions and answers, TestInside has assembled to take you through 112 Q&As to your HP0-703 Exam preparation. In the HP0-703 exam resources, you will cover every field and category in HP Certification helping to ready you for your successful HP Certification.

Quality and Value for the HP0-703 Exam TestInside Practice Exams for HP **Certification II** Certification HP0-703 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

TestInside provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the HP0-703 Exam.

HP0-703 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the Certification II product experts, included the current newest HP0-703 examination questions.

3. 100% Guarantee to Pass Your Certification II exam and get your Certification II Certification.

If you do not pass the HP Certification HP0-703 exam (Tru64 UNIX V5 Network Administration) on your first attempt using our TestInside testing engine and pdf file, we will give you a FULL REFUND of your purchasing fee.

use TestInside HP0-703 Q&A ensure you pass the exam at your first try.

TestInside professional provide Certification II HP0-703 the newest Q&A, completely covers HP0-703 test original topic. With our complete Certification II resources, you will minimize your Certification II cost and be ready to pass your HP0-703 tests on Your First Try, 100% Money Back Guarantee included!

[HP HP0-703](#) Test belongs to one of the Certification II certified test, if needs to obtain the Certification II certificate, you also need to participate in other related test, the details you may visit the [Certification II](#) certified topic, in there, you will see all related Certification II certified subject of examination.

TestInside Testing Engine Features

Comprehensive questions and answers about HP0-703 exam

HP0-703 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

HP0-703 exam questions updated on regular basis

Same type as the certification exams, HP0-703 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free HP0-703 exam demo before you decide to buy it in Test-Inside.com.

Note: This pdf demo do not include the question's picture.

Exam : HP HP0-703

Title : Tru64 UNIX V5 Network Administration

1. A campus network has a subnet of 255.255.255.224. Which hosts are in the same subnet?

Host A 10.1.20.33/27

Host B 10.1.20.31/27

Host C 10.1.20.1/27

Host D 10.1.20.49/27

A. None

B. B and C

C. A, B, and C

D. A, B, C, and D

Answer: B

2. Which function does the point-to-point protocol (PPP) perform?

A. checking point-to-point connections on a LAN

B. transmitting datagrams over serial point-to-point links

C. updating point-to-point routing tables

D. changing the routes that systems take between two points

Answer: B

3. What is the name of the collection of networks and gateways (including ARPANET, MILNET, and NSFnet) that use the TCP/IP protocol suite and function as a single, cooperative virtual network?

A. Intranet

B. Internet

C. World Wide Web

D. NIC

Answer: B

4. The netstat -I tu0 -s command displays excessive collisions and send failures. Which IP layer captures information about these errors?

A. Internet

B. Transport

C. Application

D. Network Interface

Answer: D

5. Which transport protocol or protocols does NFS use?

A. TCP or UDP

B. TCP only

C. UDP only

D. NFS

Answer: A

6. How many bits are in an IPv4 address?

A. 8

B. 16

C. 32

D. 64

Answer: C

7. The command `route delete default 1.2.3.4` returns the following message:

writing to routing socket: No such process

delete net default: gateway 1.2.3.4: not in table

What does the message indicate?

A. The default gateway address is not 1.2.3.4.

B. The default is in the permanent cache.

C. You do not have permission to delete the route.

D. The route daemon is not running.

Answer: A

8. Which IP layer is responsible for moving frames over the wire? Click the Exhibit button to access the graphic.

A. Application

B. Transport

C. Internet

D. Network Interface

Answer: D

9. What action is needed to cause a Tru64 UNIX system to forward traffic between networks when it has multiple interfaces on different subnets?

A. No action required, because Tru64 UNIX always functions as a router.

B. Set SysMan to run the system as an IP router.

C. Add the appropriate routes to the `/etc/routes` file.

D. Configure the routes to point to this Tru64 UNIX system.

Answer: B

10. Which is TRUE about UDP?

A. UDP is a connectionless protocol.

B. UDP uses a three-way handshake.

C. UDP enforces correct packet sequencing.

D. UDP uses a sliding window for flow control.

Answer: A

11. Which mail configuration file can you distribute using NIS?

A. `mailrc`

B. `aliases`

C. `mail.conf`

D. `sendmail.cf`

Answer: B

12. What is the function of `inetd`?

A. Monitors all the pseudo devices.

B. Ensures the network servers are running.

C. Maintains the link IDs on all current connections.

D. Listens for incoming connections and dispatches the service based on the port number.

Answer: D

13. What is an SNMP trap?

A. an event sent to UDP port 162

- B. a message generated by the NMS
- C. an unsolicited event notifying the NMS of a change
- D. an application that sits and listens for incoming information

Answer: C

14. Which problem causes TELNET or FTP addresses outside the local LAN to time out?

- A. the default route is incorrect
- B. the default route is undefined
- C. telnetd and ftpd on the local system are not running
- D. routed is looping

Answer: A

15. Which type of host should not use routed?

- A. server
- B. workstation
- C. external gateway
- D. departmental router

Answer: C

16. Which program is needed when working with OSPF routing protocol?

- A. named
- B. BIND
- C. routed
- D. gated

Answer: D

17. What does this entry in gated.conf mean?

```
# rip yes ;{nobroadcast ;};  
#
```

- A. gated listens for rip updates and sends them out
- B. gated behaves like routed -q
- C. gated runs once, listens for routes and terminates
- D. gated fails because the shell is not defined

Answer: B

18. Which routing protocol interoperates with routed?

- A. HELLO
- B. RIP
- C. EGP
- D. BGP

Answer: B

19. What is the IP address range for Class A networks?

- A. 0-126
- B. 0-127
- C. 1-126
- D. 1-192

Answer: C

20. Which protocol does gated use to advertise routes?

- A. ARP
- B. RIP
- C. TFTP

D. ICMP

Answer: B
