

JN0-311 JNCIA

Juniper Networks WX, Associate(JNCIA-WX)

Practice Exam: JN0-311 Exams

Exam Number/Code: JN0-311

Exam Name: WX, Associate(JNCIA-WX)

Questions and Answers: 90 Q&As

([JNCIA](#))

Exam : [JN0-311](#)

"WX, Associate(JNCIA-WX)", also known as JN0-311 exam, is a Juniper Networks certification. With the complete collection of questions and answers, TestInside has assembled to take you through 90 Q&As to your JN0-311 Exam preparation. In the JN0-311 exam resources, you will cover every field and category in Juniper Networks Certification helping to ready you for your successful Juniper Networks Certification.

Quality and Value for the JN0-311 Exam TestInside Practice Exams for Juniper Networks **JNCIA** Certification JN0-311 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

TestInside provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the JN0-311 Exam.

JN0-311 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the JNCIA product experts, included the current newest JN0-311 examination questions.

3. 100% Guarantee to Pass Your JNCIA exam and get your JNCIA Certification.

If you do not pass the Juniper Networks Certification JN0-311 exam (WX, Associate(JNCIA-WX)) on your first attempt using our TestInside testing engine and pdf file, we will give you a FULL REFUND of your purchasing fee.

use TestInside JN0-311 Q&A ensure you pass the exam at your first try.

TestInside professional provide JNCIA JN0-311 the newest Q&A, completely covers JN0-311 test original topic. With our complete JNCIA resources, you will minimize your JNCIA cost and be ready to pass your JN0-311 tests on Your First Try, 100% Money Back Guarantee included!

[Juniper Networks JN0-311](#) Test belongs to one of the JNCIA certified test, if needs to obtain the JNCIA certificate, you also need to participate in other related test, the details you may visit the [JNCIA](#) certified topic, in there, you will see all related JNCIA certified subject of examination.

TestInside Testing Engine Features

Comprehensive questions and answers about JN0-311 exam

JN0-311 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

JN0-311 exam questions updated on regular basis

Same type as the certification exams, JN0-311 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free JN0-311 exam demo before you decide to buy it in Test-Inside.com.

Note: This pdf demo do not include the question's picture.

Exam : Juniper JN0-311

Title : Juniper WX, Associate(JNCIA-WX)

1. Why is SNMPv2 used to monitor the WX platform?

- A. SNMPv1 is read-only on WX devices.
- B. SNMPv1 is not supported by WX devices.
- C. SNMPv2 supports both 32- and 64-bit counters.
- D. SNMPv2 does put and get commands to WX devices.

Answer: C

2. What happens when you enable QoS bandwidth detection? (Choose two.)

- A. Circuit speed is reduced by 2% for overhead.
- B. WAN speed can be configured to the LAN speed.
- C. Bandwidth is adjusted based on minimum and maximum settings.
- D. WAN bandwidth is detected based on acknowledgement of metapackets.

Answer: BD

3. What is NSC's functionality?

- A. Web caching
- B. sequence caching
- C. memory-based compression
- D. next-generation compression

Answer: B

4. Which two environments would take advantage of TCP Acceleration (AFP)? (Choose two.)

- A. satellite networks
- B. low-latency networks
- C. long-haul link with 95% compressibility.
- D. long-haul link with 10% compressibility.

Answer: AC

5. Which two configurations are made using the QoS Setup Wizard? (Choose two.)

- A. Assign applications to traffic classes.
- B. Use ToS/DSCP values for traffic classes.
- C. Exclude subnets from QoS management.
- D. Select dedicated vs. over-subscribed circuits.

Answer: AD

6. Which three types of optimization does the WX60 device perform when Exchange 2000 and Outlook 2000 are used in the network? (Choose three.)

- A. Fast Connection Setup
- B. TCP Acceleration (AFP)
- C. Network Sequence Caching
- D. AppFlow's MAPI acceleration
- E. Molecular Sequence Reduction

Answer: BDE

7. What are three key pre-installation/configuration considerations when deploying a WX device? (Choose three.)

- A. cabling
- B. community topology
- C. requires a license key
- D. requires two IP addresses
- E. registration server designation

Answer: ABE

8. Which two secure remote access methods are available on the WX platforms? (Choose two.)

- A. SSL
- B. SSH
- C. Telnet
- D. HTTP

Answer: AB

9. Which three statistics does the Executive report summarize? (Choose three.)

- A. latency and loss
- B. compression results
- C. traffic (by application)
- D. CRC and alignment errors
- E. user access (by username)

Answer: ABC

10. What are two ways to access the WX device's Quick Setup installation? (Choose two.)

- A. SSH on port 22
- B. HTTP on port 80
- C. Telnet on port 23
- D. HTTPS on port 443

Answer: AD

11. Which three locations in WebView allow you to confirm that the endpoints are configured properly? (Choose three.)

- A. Monitor > Endpoints
- B. Acceleration > Endpoints
- C. Device Setup > Endpoints
- D. Compression > Endpoints
- E. Admin > Maintenance > Display Configuration

Answer: ADE

12. Which Packet Flow Acceleration feature is most effective for short-lived TCP sessions?

- A. Active Flow Pipelining
- B. Fast Connection Setup
- C. TCP Acceleration (AFP)
- D. Forward Error Correction

Answer: B

13. What are two requirements when using AppFlow? (Choose two.)

- A. Quality of service must be enabled.
- B. NSC compression must be enabled.
- C. PFA's TCP Acceleration (AFP) must be enabled.
- D. AppFlow must be configured on the client-side device first.

Answer: AC

14. When defining an application for AppFlow acceleration, which two must be configured on the WX device? (Choose two.)

- A. Define application type.
- B. Enable AppFlow for the application.
- C. Enable monitoring for the application.
- D. Define source and destination IP addresses.

Answer: AB

15. Which three methods can you use for route discovery on a WX platform? (Choose three.)

- A. Enable RIP.
- B. Enable OSPF.
- C. Periodically poll any router.
- D. Import routes from a TFTP server.

Answer: ABD

16. Which two patented or patent-pending compression and caching technologies are used for WX/WXC devices? (Choose two.)

- A. Network Sequence Caching (NSC)
- B. Molecular Sequence Caching (MSC)
- C. Network Sequence Reduction (NSR)
- D. Molecular Sequence Reduction (MSR)

Answer: AD

17. Which three must be configured for the Packet Capture tool to collect all required data? (Choose three.)

- A. Enter the password.
- B. Modify the delete time to 3 hours.
- C. Set the interface to local, remote or both.
- D. Increase the snap length of the Packet Capture configuration.
- E. Set the Packet Capture size to greater than the actual data flow.

Answer: ACE

18. Which two statements describe the criteria bandwidth detection uses to dynamically alter bandwidth allocation? (Choose two.)

- A. Throughput is raised as latency decreases.
- B. Throughput is based on available bandwidth.
- C. Throughput is lowered as latency decreases.
- D. Latency is measured by SYNs returned for each metapacket.

Answer: AB

19. Which statement is true about compression subnets?

- A. Compression subnets are turned on by default.
- B. Compression subnets advertise remote routes.
- C. Compression subnets are usually LAN-side subnets.
- D. Compression subnets are usually WAN-side subnets.

Answer: C

20. What are two ways to view the system log files on a WX device? (Choose two.)

- A. Use the CLI and enter show log.
- B. Use the CLI and enter show all.
- C. Use the CLI and enter show logging.
- D. In WebView, choose Admin > Tools > Display System Log.

Answer: AD
