Juniper Networks ER.Associate(JNCIA-ER)

Practice Exam: JN0-341 Exams

Exam Number/Code: JN0-341

Exam Name: ER.Associate(JNCIA-ER)

Questions and Answers: 119 Q&As

([JNCIA](#))

Exam : [JN0-341](#)

"ER.Associate(JNCIA-ER)", also known as JN0-341 exam, is a Juniper Networks certification. With the complete collection of questions and answers, TestInside has assembled to take you through 119 Q&As to your JN0-341 Exam preparation. In the JN0-341 exam resources, you will cover every field and category in Juniper Networks Certification helping to ready you for your successful Juniper Networks Certification.

Quality and Value for the JN0-341 Exam TestInside Practice Exams for Juniper Networks **JNCIA** Certification JN0-341 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

TestInside provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the JN0-341 Exam.

JN0-341 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the JNCIA product experts, included the current newest JN0-341 examination questions.

3. 100% Guarantee to Pass Your JNCIA exam and get your JNCIA Certification.

If you do not pass the Juniper Networks Certification JN0-341 exam (ER.Associate(JNCIA-ER)) on your first attempt using our TestInside testing engine and pdf file, we will give you a FULL REFUND of your purchasing fee.

use TestInside JN0-341 Q&A ensure you pass the exam at your first try.

TestInside professional provide JNCIA JN0-341 the newest Q&A, completely covers JN0-341 test original topic. With our complete JNCIA resources, you will minimize your JNCIA cost and be ready to pass your JN0-341 tests on Your First Try, 100% Money Back Guarantee included!

[Juniper Networks JN0-341](#) Test belongs to one of the JNCIA certified test, if needs to obtain the JNCIA certificate, you also need to participate in other related test, the details you may visit the [JNCIA](#) certified topic, in there, you will see all related JNCIA certified subject of examination.

TestInside Testing Engine Features

Comprehensive questions and answers about JN0-341 exam

JN0-341 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

JN0-341 exam questions updated on regular basis

Same type as the certification exams, JN0-341 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free JN0-341 exam demo before you decide to buy it in Test-Inside.com.

Note: This pdf demo do not include the question's picture.

Exam : Juniper JN0-341

Title : Juniper ER.Associate(JNCIA-ER)

1. Which three statements are true? (Choose three.)

- A. J-series routers have a config button.
- B. J-series routers support xDSL interfaces.
- C. J-series routers require licenses for DLSw.
- D. J-series routers support Link Services PIMs.
- E. J-series routers have a dedicated management interface (fxp0).

Answer: ABC

2. In which order are routing policy terms evaluated?

- A. alphabetical
- B. best match first
- C. numerical (lowest to highest)
- D. in the order listed in the configuration

Answer: D

3. Within the J-Web initial setup wizard, which menu is used to configure a password for individual network administrators who must access the router?

- A. Users
- B. Set Up
- C. Routing
- D. Interfaces

Answer: A

4. Which two statements are true for J-series routers? (Choose two.)

- A. The J-series routers have an internal FPC.
- B. The packet forwarding is performed by an Intel CPU.
- C. The fwd process is responsible for packet forwarding.
- D. Forwarding look-ups are performed by the Routing Engine.

Answer: BC

5. Which two routers have multiple fixed Ethernet interfaces and support field-replaceable Physical Interface Cards/Modules? (Choose two.)

- A. M7i
- B. M10i
- C. J2300
- D. J4350

Answer: AD

6. What are three methods for managing a Juniper Enterprise Router? (Choose three.)

- A. CLI
- B. SDX
- C. SAP
- D. J-Web

E. J-Config

Answer: ABD

7. What are two functions of the Intel IXP processors? (Choose two.)

A. keepalives

B. route-lookup

C. CRC validation

D. Layer 2 decapsulation

Answer: AC

8. Which two statements are true for M7i and M10i routers? (Choose two.)

A. The M7i and M10i routers are equipped with the Internet Processor II.

B. The M7i and M10i routers are always equipped with fixed GE interfaces.

C. The M7i and M10i routers support GE, ATM and other physical interface cards (PICs).

D. The M7i and M10i routers cannot provide line rate performance on GE and ATM interfaces.

Answer: AC

9. What are two methods of accessing a Juniper enterprise router? (Choose two)

A. RSH

B. HTTPS

C. console

D. J-Config

Answer: BC

10. Which CLI command is used to remove configuration portions from the router?

A. no

B. undo

C. delete

D. remove

Answer: C

11. What is shown by the command `show interfaces extensive fe-0/0/0` but not shown by the command `show interface detail fe-0/0/0?`

A. input error counter

B. interface MTU size

C. input packets counter

D. the IP address on logical interface fe-0/0/0.0

Answer: A

12. On a J-series router, where is the JUNOS software located?

A. EPROM

B. Zip drive

C. hard drive

D. compact flash

Answer: D

13. Which two components of the JUNOS software architecture are found on all Juniper enterprise routers? (Choose two.)

A. multiple software daemons

B. separation of control and forwarding

C. separate management interface (fxp0)

D. Application Specific Integrated Circuits (ASICs)

Answer: AB

14. How many fixed Fast Ethernet ports are on a J2300 router?

- A. 0
- B. 1
- C. 2
- D. 4

Answer: C

15. Which predefined login class allows a user to issue show, clear, and reset commands, but does not allow the user to configure the router?

- A. noc
- B. operator
- C. read-only
- D. super-user

Answer: B

16. Which two field-replaceable units are common to M7i, M10i, and J-series routers? (Choose two.)

- A. fan tray
- B. compact flash
- C. Routing Engine
- D. physical interface card/physical interface module (PIC/PIM)

Answer: BD

17. Which J-Web menu is used to configure a single area OSPF configuration?

- A. Configuration > OSPF Routing
- B. Configuration > OSPF Routing > Single Area
- C. Configuration > Routing and Protocols > OSPF Routing
- D. Configuration > Quick Configuration > Routing and Protocols > OSPF Routing

Answer: D

18. Which statement describes how transit packets are handled on a J-series router?

- A. They are only examined by the PICs.
- B. They are treated the same as host packets.
- C. They are processed by the forwarding daemons.
- D. They are reassembled into ATM cells across the router.

Answer: C

19. Which two statements are true for M7i/M10i routers? (Choose two.)

- A. Packet forwarding is done by an Intel CPU.
- B. Route look-up is done by the fwdd process.
- C. Packet forwarding is done by the Internet Processor II.
- D. FPC is a part of the Packet Forwarding Engine (PFE).

Answer: CD

20. Which two field-replaceable units (FRUs) are hot-swappable? (Choose two.)

- A. Routing Engine on M10i
- B. Physical Interface Card on M7i
- C. fan tray on J-series routers
- D. Physical Interface Modules on J6300 router

Answer: AB
