Exam : IBM LOT-828

Title : Administering IBM Workplace Services Express 2.6

1. Philip created a new application catalog portlet. How does he configure it for a new category of application?

- A. Modify the catalog policy setting in the WebSphere Administration Console
- B. Open the Administration screen, choose the portlet and configure its properties
- C. Because category association is automatic based on the name of the portlet, he does nothing
- D. Open the page that contains the catalog portlet, click the configure wrench icon, and then select the category

Answer: D

2. Which of the following can Craig modify in a template's properties?

- A. Title, Skins and Template Owner
- B. Title, Theme, and Template Editor
- C. Category, Theme and Template Owner
- D. Category, Skins and Template Editor

Answer: C

3. Rob's company has Workplace Services Express development, staging and production servers. The development team has created a new template on the development server. How does he move the template from the development server to the staging server to the production server?

- A. He runs XmlAccess to backup the template and restores it to the next serv
- B. He configures the development, staging and production servers to replicate template design
- C. He exports the template as an XML file on one server, and imports it onto the next using the Workplace Template Library
- D. Each time the template is modified, he asks the development team to redeploy the .war file, which he imports using the Portlet Manager

Answer: C

4. Which of the following portlets are required in order for Ron to deploy a new template for applications?

- A. Application home portlet and membership portlet
- B. Application description portlet and membership portlet
- C. Application roles portlet and Application home portlet
- D. Application calendar portlet, membership portlet and Common PIM portlet

Answer: A

5. When Gerald's company developed a new application for Workplace Services Express, it did not fit into any of the categories of previous applications, such as Team Spaces or Document Libraries. In addition to creating a new category, what else must he do to make the application available for users?

- A. create a new application catalog list
- B. Nothing, the application will show up with others
- C. Create a new page with a link to the new application
- D. Create an application catalog portlet to list all applications belonging to the new category and a page to contain the new application catalog portlet

Answer: D

6. Arman has deployed and supports several applications on a Workplace Services Express server. In order to edit

applications, which role must be assigned to a user?

- A. Editor
- B. Manager
- C. Super User
- D. Administrator

Answer: B
