

VCP-410 VMWare Certification

VMWare VMware Certified Professional on VI4

Practice Exam: VCP-410 Exams

Exam Number/Code: VCP-410

Exam Name: VMware Certified Professional on VI4

Questions and Answers: 300 Q&As

([VMWare Certification](#))

Exam : [VCP-410](#)

"VMware Certified Professional on VI4", also known as VCP-410 exam, is a VMWare certification. With the complete collection of questions and answers, TestInside has assembled to take you through 300 Q&As to your VCP-410 Exam preparation. In the VCP-410 exam resources, you will cover every field and category in VMWare Certification helping to ready you for your successful VMWare Certification.

Quality and Value for the VCP-410 Exam TestInside Practice Exams for VMWare **VMWare Certification** Certification VCP-410 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

TestInside provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the VCP-410 Exam.

VCP-410 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the VMWare Certification product experts, included the current newest VCP-410 examination questions.

3. 100% Guarantee to Pass Your VMWare Certification exam and get your VMWare Certification Certification.

If you do not pass the VMWare Certification VCP-410 exam (VMware Certified Professional on VI4) on your first attempt using our TestInside testing engine and pdf file, we will give you a FULL REFUND of your purchasing fee.

use TestInside VCP-410 Q&A ensure you pass the exam at your first try.

TestInside professional provide VMWare Certification VCP-410 the newest Q&A, completely covers VCP-410 test original topic. With our complete VMWare Certification resources, you will minimize your VMWare Certification cost and be ready to pass your VCP-410 tests on Your First Try, 100% Money Back Guarantee included!

[VMWare VCP-410](#) Test belongs to one of the VMWare Certification certified test, if needs to obtain the VMWare Certification certificate, you also need to participate in other related test, the details you may visit the [VMWare Certification](#) certified topic, in there, you will see all related VMWare Certification certified subject of examination.

TestInside Testing Engine Features

Comprehensive questions and answers about VCP-410 exam

VCP-410 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

VCP-410 exam questions updated on regular basis

Same type as the certification exams, VCP-410 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free VCP-410 exam demo before you decide to buy it in Test-Inside.com.

Exam : VMware VCP-410

Title : VMware Certified Professional on VI4

1. An ESX Administrator plans to install additional supported components on the ESX Server that would increase the memory requirements for the Service Console. Which ESX Server partition would also need to be increased during installation as a result?

- A. /
- B. vmfs3
- C. swap
- D. /boot

Answer: C

2. The vSphere 4 Host Update Utility provides a graphical user interface for (Choose Two):

- A. performing a host compatibility check
- B. upgrading standalone ESX/ESXi hosts
- C. upgrading ESX hosts in DRS/HA clusters
- D. keeping guest operating systems patched

Answer: AB

3. Before you upgrade an ESX host:

- A. back up /proc, /mnt, /tmp, custom scripts and all VMFS datastores
- B. back up /home, /etc/init.d and /boot
- C. back up /etc/passwd, /etc/groups, /etc/shadow, /etc/gshadow, custom scripts and local VMFS
- D. back up /var/logs, /usr, /bin and the dmesg output

Answer: C

4. Once vCenter 4.x has been installed, a License Server is required in which of the following instances?

- A. A License Server is always required
- B. To support ESXi 4.x Hosts
- C. To support ESX 3.5 Hosts
- D. A License Server is no longer required

Answer: C

5. Before you upgrade an ESXi host:

- A. update the ESXi restore CD with the current ESXi image
- B. save the current ESXi image to another ESXi server
- C. copy the embedded ESXi image to a USB flash drive
- D. save the ESXi configuration using vicfg-cfgbackup s from the vCLI

Answer: D

6. Which of the following tasks can be selected from the home page of an ESX Server (Choose Three)?

- A. Download VMware vCenter Server
- B. Browse Objects Managed by this Host
- C. Browse Virtual Machines in this Host's inventory
- D. Browse Datastores in this Host's inventory
- E. Download VMware Web Access Client

Answer: ABD

7. vCenter Update Manager is capable of upgrading which of the following (Choose Three):

- A. vCenter
- B. Service Console
- C. Virtual Machine Hardware
- D. vSphere Client
- E. VMware Tools

Answer: BCE

8. Which of the following partitions is specific to ESXi 4.0?

- A. usr
- B. vmkcore
- C. scratch
- D. swap

Answer: C

9. Securing an ESX service console is important because:

- A. Service Console actions can affect all VMs on an ESX host
- B. Service Console permissions are applied to users when logging in to a host via vCenter
- C. VMs run in the service console
- D. VMs depend on the patch level of the service console

Answer: A

10. Which of the following are true regarding the ESX Service Console file system structure (Choose Two)?

- A. separate mount points are created for /tmp, /var/log and swap by default
- B. running out of space on /var/log can cause vSphere Client connectivity disruptions
- C. running out of space on / can cause vSphere Client connectivity disruptions
- D. separate mount points are created for /var/log and swap by default

Answer: CD

11. The vSphere 4 Host Update Utility upgrades the (Choose Two):

- A. VMkernel
- B. virtual machine hardware
- C. VMFS datastores
- D. service console if present

Answer: AD

12. ESX Service Console patches should be applied (Choose Two):

- A. as instructed by VMware authorized technical support personnel
- B. when an issue is identified
- C. as Red Hat makes patches available
- D. as VMware makes patches available

Answer: AD

13. The vSphere 4 Update Manager upgrades (Choose Three):

- A. virtual machine Tools
- B. VMFS datastores
- C. virtual machine hardware
- D. vSphere Client
- E. vCenter

Answer: ABC

14. When installing ESX 4.0, where is the Service Console file system located?

- A. In a virtual disk on a local VMFS datastore
- B. In a virtual disk on a local or shared VMFS datastore
- C. On a local physical disk or on a mapped SAN LUN
- D. On a local physical disk

Answer: A

15. An administrator is installing ESX 4.0 on a physical server. Which of the following components would need to be modified or replaced to support a successful installation?

- A. 4 Intel PRO 1000 Network Adapters
- B. 2 LSI Logic LSI7202XP-LC Fibre Channel HBAs
- C. 2 AMD Opteron CPUs
- D. 4GB RAM

Answer: B

16. The ESX 4.x Service Console Virtual Disk can be located on (Choose Two):

- A. a VMFS datastore on software iSCSI attached storage
- B. a VMFS datastore on non-shared FC attached storage
- C. an NFS datastore
- D. a VMFS datastore on locally attached storage

Answer: BD

17. What are the minimum vSphere Small Business and Medium/Enterprise Editions that include VMware Data Recovery (Choose Two)?

- A. vSphere Essentials Plus
- B. vSphere Standard
- C. vSphere Advanced
- D. vSphere Essentials

Answer: AC

18. Additional licensing is required once the number of cores per CPU reaches which of the following?

- A. 16 or more cores
- B. 12 or more cores
- C. 8 or more cores
- D. 6 or more cores

Answer: C

19. Before you upgrade an ESX/ESXi host (Choose Three):

- A. verify current hardware is supported per the vSphere Systems Compatibility Guide
- B. compare the md5sum of the downloaded file to the value on the VMware download website
- C. schedule a maintenance window for 32-bit hardware
- D. run the vSphere 4 Pre-Upgrade Script from the command line
- E. run the VMware CPU Identification Utility

Answer: ABE

20. The following ESX versions are supported for direct upgrading to vSphere 4 (Choose Two):

- A. ESX 2.1
- B. ESX 2.5.5
- C. ESX/ESXi 3.5
- D. ESX 3.0.0, 3.0.1, 3.0.2

Answer: CD

21. The default swap partition size for ESX 4.0 is which of the following?

- A. 800MB
- B. 1.6GB
- C. 544MB
- D. 600MB

Answer: D

22. Which vSphere Editions include VMware Data Recovery (Choose Two)?

- A. vSphere Essentials Plus or higher
- B. vSphere Advanced or higher
- C. vSphere Standard or higher
- D. vSphere Essentials or higher

Answer: AB

23. After upgrading an ESX host to vSphere 4, which of the following three actions should be taken (Choose Three)

- A. restore files to the service console
- B. boot into Troubleshooting Mode for proper operation
- C. configure licensing
- D. verify virtual machine operation
- E. connect the host to vCenter if managed

Answer: CDE

24. Creating which of the following optional partitions would change the default partition size for /?

- A. /tmp
- B. /home
- C. /var/log
- D. /usr

Answer: D

25. The ESX Service Console file system structure should (Choose Two):

- A. provide separate mount points for /tmp, /var/log and /home
- B. avoid filling /
- C. avoid filling /home
- D. provide separate mount points for /tmp, /var/log, /home and /etc

Answer: AB

26. Which of the following features is not a part of the vSphere Advanced Edition?

- A. VMware Storage VMotion
- B. VMware VMotion
- C. VMware Data Recovery
- D. VMware Fault Tolerance

Answer: A

27. Which of the following functions cannot be performed remotely and must be performed from the ESXi Direct Console (Choose Three)?

- A. Configure DNS Settings
- B. Restart Management Agents
- C. Test the Management Network
- D. Restore a Standard Switch
- E. Configure a Static IP Address

Answer: BCD

28. In order to upgrade to vSphere 4, an ESX host must have a /boot partition of at least:

- A. 150 MB

- B. 200 MB
- C. 100 MB
- D. 50 MB

Answer: C

29. ESX Service Console patches should be applied (Choose Two):

- A. in accordance with VMware Security Advisories
- B. when notified on the VMware Security Blog
- C. when advised by VMware authorized technical support personnel
- D. in accordance with VMware and RedHat Security Advisories

Answer: AC

30. What is the maximum number of cores that can be used with Standard licensing?

- A. 8
- B. 16
- C. 12
- D. 6

Answer: D
