

## **e20-340 Implementation**

### **EMC clariion solutions implementation**

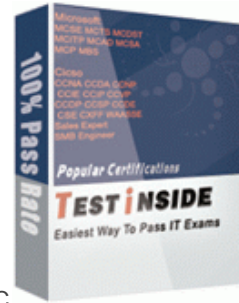

**Practice Exam:** e20-340 Exams

**Exam Number/Code:** e20-340

**Exam Name:** clariion solutions implementation

**Questions and Answers:** 104 Q&As

( [Implementation](#) )

Exam : [e20-340](#)

"clariion solutions implementation", also known as e20-340 exam, is a EMC certification. With the complete collection of questions and answers, TestInside has assembled to take you through 104 Q&As to your e20-340 Exam preparation. In the e20-340 exam resources, you will cover every field and category in EMC Certification helping to ready you for your successful EMC Certification.

Quality and Value for the e20-340 Exam TestInside Practice Exams for EMC **Implementation** Certification e20-340 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

### **TestInside provide the professional Q&A.**

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the e20-340 Exam.

e20-340 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the Implementation product experts, included the current newest e20-340 examination questions.

3. 100% Guarantee to Pass Your Implementation exam and get your Implementation Certification.

If you do not pass the EMC Certification e20-340 exam (clariion solutions implementation) on your first attempt using our TestInside testing engine and pdf file, we will give you a FULL REFUND of your purchasing fee.

### **use TestInside e20-340 Q&A ensure you pass the exam at your first try.**

TestInside professional provide Implementation e20-340 the newest Q&A, completely covers e20-340 test original topic. With our complete Implementation resources, you will minimize your Implementation cost and be ready to pass your e20-340 tests on Your First Try, 100% Money Back Guarantee included!

[EMC e20-340](#) Test belongs to one of the Implementation certified test, if needs to obtain the Implementation certificate, you also need to participate in other related test, the details you may visit the [Implementation](#) certified topic, in there, you will see all related Implementation certified subject of examination.

### **TestInside Testing Engine Features**

Comprehensive questions and answers about e20-340 exam

e20-340 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

e20-340 exam questions updated on regular basis

Same type as the certification exams, e20-340 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free e20-340 exam demo before you decide to buy it in Test-Inside.com.

Note: This pdf demo do not include the question's picture.

Exam : EMC E20-340

Title : Clariion Solutions Implementation

1. Which port is required at installation in order to configure a back-end bus on a CX4?

- A. Port 0 A-Bus 0
- B. Port 1 B-Bus 1
- C. Port 0 A-Bus1
- D. Port 3 B-Bus2

Answer: A

2. Which access will be restricted by using IP address filtering?

- A. CIMON debug menu
- B. CIMON debug
- C. iSCSI ports
- D. Navisphere Service

Answer: A

3. According to EMC best practice, what is the proper sequence for powering up a CLARiiON array?

- A. Power on SP A and then power on SP B
- B. Power on the master switch and then power on each SP
- C. Power on the master switch; both SPs will power on automatically
- D. Turn on the power switch for each SPS and then power on the master switch

Answer: D

4. Using the Fibre Channel fan-in rule, what is the maximum number of storage systems a host can attach to?

- A. 2
- B. 4
- C. 8
- D. 16

Answer: B

5. After the initial CX4 configuration has been set up and persisted, a customer would like to add additional back-end and front-end ports. In the diagram, which logical port assignments will be given to port 1 and port 3, respectively?

- A. Port 1 - BE1, Port 3 - FE3
- B. Port 1 - BE2, Port 3 - FE2
- C. Port 1 - FE1, Port 3 - BE2
- D. Port 1 - FE3, Port 3 - BE2

Answer: A

6. What is the hard-coded Ethernet IP address for a SP B service port in a CX3-20 and CX3-40?

- A. 128.221.1.251
- B. 128.122.2.251
- C. 128.221.1.250
- D. 128.122.2.250

Answer: A

7. Which type of port is shown in the illustration?

- A. Fibre Switch
- B. Fibre Switch
- C. MirrorView
- D. Fibre Switch

Answer: C

8. Which Navisphere utility can be used to exchange a faulted I/O module in CX4?

- A. Initialization
- B. Initialization
- C. Replacement
- D. Initialization

Answer: C

9. What is the correct command to add user security?

- A. naviseccli -AddUserSecurity -scope 0 -user -username -password mypass
- B. naviseccli -AddUserSecurity -password mypass -scope 0 -user username
- C. navicli -AddUserSecurity -scope 0 -user -username -password mypass
- D. navicli -AddUserSecurity -password mypass -scope 0 -user -username

Answer: B

10. Which cable type is required to connect the DAE2P to the DAE3P?

- A. HSSDC - HSSDC
- B. HSSDC2 - HSSDC2
- C. HSSDC - HSSDC2
- D. HSSDC - HSSDC3

Answer: B

11. What is the correct command to delete user security?

- A. navicli -RemoveUserSecurity -scope 0 -user -username -password mypass
- B. navicli -RemoveUserSecurity -password mypass -scope 0 -user username
- C. naviseccli -RemoveUserSecurity -scope 0 -user -username -password mpass
- D. naviseccli -RemoveUserSecurity -password mypass -scope 0 -user -username

Answer: D

12. IP address filtering restricts access for Navisphere Manager, Navisphere Express, and Navisphere Secure CLI. Which access does it allow?

- A. Access to iSCSI ports, EMCRemote, and communication between SPs
- B. HAVT Reports and CIMON Debug
- C. Navisphere Management Ports and EMCRemote
- D. Navisphere Service, serial ports, and Navisphere Management Ports

Answer: A

13. Which tool is now required when upgrading FLARE or upgrading a DAE with FLARE 26?

- A. CLARiiON software installer
- B. Navisphere Manager
- C. NDU package enabler
- D. NST software assistant

Answer: D

14. What is the maximum number of drives and LUNs supported by a CX3-40?

- A. 240 drives and up to 1,024 LUNs
- B. 256 drives and up to 1,024 LUNs

C. 480 drives and up to 2,048 LUNs

D. 512 drives and up to 4,096 LUNs

Answer: A

15. Which tasks do the two items (outlined in red) perform?

A. Open a new browser window and display online help

B. Open a new enterprise storage window and a wizard for routine tasks

C. Open a new enterprise storage window and display online help

D. Open EMC ControlCenter and display online help

Answer: C

16. A customer currently owns five CLARiiON systems. They can only access Navisphere when they point their web browser to the IP addresses of two of the five storage systems. What would be changed to allow them to use all of the arrays for Navisphere access?

A. Log in to CLARiiON as Global Administrator; under the Security Menu select "Configure Manager Launch from Storage System"; move the three systems to the "Storage Systems with Manager Launch enabled" list

B. Log in to CLARiiON as Local Administrator; under the Security Menu select "Configure Manager Launch from Storage System"; move the remaining arrays to the "Storage Systems with Manager Launch enabled" list

C. Log in to the CLARiiON as a Global Administrator; under the Security Menu select "Configure LDAP Connection Settings"; move the remaining arrays to the "Service Connection(s)" list

D. Log in to the CLARiiON as a Local Administrator; under the Security Menu select "Configure LDAP Connection Settings"; move the remaining arrays to the "Service Connection(s)" list

Answer: A

17. What is the function of IP address filtering?

A. Restricts access to iSCSI ports, EMCRemote, and communication between SPs.

B. Restricts access to Navisphere Service and Serial ports.

C. Restricts access to specific management clients.

D. Restricts access to the Loopback Address.

Answer: C

18. What is the first thing you need to know when starting the Initialization Utility?

A. Domain that the array is apart of

B. IP address of Management Port

C. Serial number of the array

D. Version of FLARE on the array

Answer: C

19. How can PKCS#12 files be imported?

A. Through GUI

B. Through Navi CLI

C. Through Secure CLI

D. Through serial cable

Answer: C

20. Which port would you use to Telnet directly into the CLARiiON?

A. Comm Port RS-232

B. Management LAN

C. Service LAN

D. SPS Serial Port RS-232

Answer: A
