Juniper Networks juniper networks certified internet specialist.m(jncis-m)

Practice Exam: jn0-303 Exams

Exam Number/Code: jn0-303

Exam Name: juniper networks certified internet specialist.m(jncis-m)

Questions and Answers: 150 Q&As

([JNCIS](#))

Exam : [jn0-303](#)

"juniper networks certified internet specialist.m(jncis-m)", also known as jn0-303 exam, is a Juniper Networks certification. With the complete collection of questions and answers, TestInside has assembled to take you through 150 Q&As to your jn0-303 Exam preparation. In the jn0-303 exam resources, you will cover every field and category in Juniper Networks Certification helping to ready you for your successful Juniper Networks Certification.

Quality and Value for the jn0-303 Exam TestInside Practice Exams for Juniper Networks **JNCIS** Certification jn0-303 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

TestInside provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the jn0-303 Exam.

jn0-303 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the JNCIS product experts, included the current newest jn0-303 examination questions.

3. 100% Guarantee to Pass Your JNCIS exam and get your JNCIS Certification.

If you do not pass the Juniper Networks Certification jn0-303 exam (juniper networks certified internet specialist.m (jncis-m)) on your first attempt using our TestInside testing engine and pdf file, we will give you a FULL REFUND of your purchasing fee.

use TestInside jn0-303 Q&A ensure you pass the exam at your first try.

TestInside professional provide JNCIS jn0-303 the newest Q&A, completely covers jn0-303 test original topic. With our complete JNCIS resources, you will minimize your JNCIS cost and be ready to pass your jn0-303 tests on Your First Try, 100% Money Back Guarantee included!

[Juniper Networks jn0-303](#) Test belongs to one of the JNCIS certified test, if needs to obtain the JNCIS certificate, you also need to participate in other related test, the details you may visit the [JNCIS](#) certified topic, in there, you will see all related JNCIS certified subject of examination.

TestInside Testing Engine Features

Comprehensive questions and answers about jn0-303 exam

jn0-303 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

jn0-303 exam questions updated on regular basis

Same type as the certification exams, jn0-303 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free jn0-303 exam demo before you decide to buy it in Test-Inside.com.

Exam : Juniper JN0-303

Title : Juniper? Networks Certified Internet pECIALIST.m(Jncis-M)

1. What are three examples of a provider-provisioned VPN supported by JUNOS software? (Choose three.)

- A. L2F
- B. PPTP
- C. Circuit cross-connect
- D. Draft-Martini-based VPNs
- E. Draft-Kompella-based VPNs

Answer: CDE

2. In JUNOS software, which type of VPN supports IPX and Appletalk?

- A. Martini based VPN's
- B. 2547bis based VPN's
- C. Sham link based VPN's
- D. Virtual Router based VPN's

Answer: A

3. What prevents routing loops when MSDP is configured across multiple domains?

- A. PIM-SM
- B. Scoping
- C. Auto-RP
- D. MBGP

Answer: D

4. Which two steps are required for a Kompella Layer 2 VPN? (Choose two.)

- A. Configure a site ID for each CE
- B. Configure a VPN label for each VPN
- C. Configure a MP-BGP session to each PE
- D. Configure an Extended LDP Session to each PE

Answer: AC

5. In JUNOS software, what is required to redistribute RIP routes into OSPF?

- A. Apply an export policy in RIP.
- B. Apply an import policy in RIP.
- C. Apply an export policy in OSPF.
- D. Apply an import policy in OSPF.

Answer: C

6. Which JUNOS software operational-mode command displays the status of a Draft-Martini VPN?

- A. show ldp neighbor
- B. show martini connections
- C. show l2circuit connections
- D. show l2vpn connections

Answer: C

7. When comparing CPE and provider-provisioned VPNs (PPVPN), which two statements are true? (Choose two.)

- A. CPE VPN's require dedicated VPN aware hardware at customer site, PPVPN does not.
- B. PPVPN's require dedicated VPN aware hardware at customer site, CPE VPN's does not.
- C. CPE VPN's scale better than PPVPN's as they do not require a per site configuration on the CPE.
- D. PPVPN's scale better than CPE VPN's as they do not require a per site configuration on the CPE.

Answer: AD

8. In JUNOS software, which three are valid encapsulation types for CCC? (Choose three.)

- A. hdlc-ccc
- B. atm-cell-ccc
- C. cisco-hdlc-ccc
- D. ethernet-vlan-ccc
- E. ethernet-snap-ccc

Answer: BCD

9. Which represents a correct PE-PE BGP configuration for an L3 VPN?

A. [edit]

```
lab@Amsterdam# show protocols bgp
group int {
type internal;
local-address 192.168.24.1;
neighbor 192.168.16.1;
}
```

B. [edit]

```
lab@Amsterdam# show protocols bgp
group int {
type internal;
local-address 192.168.24.1;
family inet {
any;
}
neighbor 192.168.16.1; }
```

C. [edit]

```
lab@Amsterdam# show protocols bgp
group int {
type internal;
local-address 192.168.24.1;
family inet {
unicast;
}
family inet-vpn {
unicast;
neighbor 192.168.16.1;
}
```

D. [edit]

```
lab@Amsterdam# show protocols bgp
group int {
type internal;
local-address 192.168.24.1;
family inet {
13-vpn;
}
```

```
neighbor 192.168.16.1;
```

```
}
```

Answer: C

10. Which LSA is the Type 10?

- A. Router LSA
- B. Opaque LSA
- C. AS attributes LSA
- D. ASBR summary LSA
- E. Network summary LSA

Answer: B

11. What are two commands that can be used to configure MBGP for multicast? (choose two)

- A. Under the BGP group, configure family inet any
- B. Use the set protocol MBGP command to enable MBGP
- C. Under the BGP group, configure family inet multicast
- D. Use the set rib-group command to copy the multicast routes into inet.1

Answer: AC

12. In what PIM topology would you use MSDP within a single domain?

- A. Auto-RP
- B. Anycast RP
- C. Bootstrap router
- D. PIM sparse mode

Answer: B

13. What is the Draft-Kompella control plane based on?

- A. IGP
- B. LDP
- C. BGP
- D. MPLS

Answer: C

14. PE1 has connections to VPN sites that are served by three remote PE routers. How many LSP's must be established to support 2547bis?

- A. an LSP for each local CE device
- B. an LSP for each remote PE device
- C. an LSP for each remote CE device
- D. an LSP for each CE facing interface

Answer: B

15. Which three RP election mechanisms are available in a PIM-SM domain? (Choose three.)

- A. Static
- B. Auto-RP
- C. Dynamic-RP
- D. Bootstrap router

Answer: ABD

16. Which two multicast groups support Auto-RP mapping and discovery? (Choose two.)

- A. 224.0.0.39
- B. 224.0.1.39
- C. 224.0.0.40
- D. 224.0.1.40

Answer: BD

17. Which two mechanisms control route distribution between PE routers in a 2547bis VPN? (Choose two.)

- A. Site ID
- B. Policies
- C. Circuit ID
- D. Extended communities

Answer: BD

18. Which multicast mode does Auto-RP require?

- A. Link-mode
- B. Dense mode
- C. Sparse mode
- D. Sparse-dense mode

Answer: D

19. An OSPF non-backbone area allows external routes to be flooded within the area. These external routes are propagated into other areas. However, external routes from other areas are not allowed to enter this area. Which type of OSPF area does this describe?

- A. stub area
- B. transit area
- C. border area
- D. not-so-stubby area

Answer: D

20. What is the administrative scoping address range associated with global scope?

- A. 224.0.0.0/24
- B. 239.128.0.0/10
- C. 239.192.0.0/14
- D. 224.0.1.0?38.255.255.255

Answer: D
