Juniper Networks FWV, Specailist(JNCIS-FWV)

Practice Exam: jn0-531 Exams

Exam Number/Code: jn0-531

Exam Name: FWV, Specailist(JNCIS-FWV)

Questions and Answers: 151 Q&As

([JNCIS](#))

Exam : [jn0-531](#)

"FWV, Specailist(JNCIS-FWV)", also known as jn0-531 exam, is a Juniper Networks certification. With the complete collection of questions and answers, TestInside has assembled to take you through 151 Q&As to your jn0-531 Exam preparation. In the jn0-531 exam resources, you will cover every field and category in Juniper Networks Certification helping to ready you for your successful Juniper Networks Certification.

Quality and Value for the jn0-531 Exam TestInside Practice Exams for Juniper Networks **JNCIS** Certification jn0-531 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

TestInside provide the professional Q&A.

1. We offer free update service for three month.

After you purchase our product, we will offer free update in time for three month.

2. High quality and Value for the jn0-531 Exam.

jn0-531 simulation test questions, including the examination question and the answer, complete by our senior IT lecturers and the JNCIS product experts, included the current newest jn0-531 examination questions.

3. 100% Guarantee to Pass Your JNCIS exam and get your JNCIS Certification.

If you do not pass the Juniper Networks Certification jn0-531 exam (FWV, Specailist(JNCIS-FWV)) on your first attempt using our TestInside testing engine and pdf file, we will give you a FULL REFUND of your purchasing fee.

use TestInside jn0-531 Q&A ensure you pass the exam at your first try.

TestInside professional provide JNCIS jn0-531 the newest Q&A, completely covers jn0-531 test original topic. With our complete JNCIS resources, you will minimize your JNCIS cost and be ready to pass your jn0-531 tests on Your First Try, 100% Money Back Guarantee included!

[Juniper Networks jn0-531](#) Test belongs to one of the JNCIS certified test, if needs to obtain the JNCIS certificate, you also need to participate in other related test, the details you may visit the [JNCIS](#) certified topic, in there, you will see all related JNCIS certified subject of examination.

TestInside Testing Engine Features

Comprehensive questions and answers about jn0-531 exam

jn0-531 exam questions accompanied by exhibits

Verified Answers Researched by Industry Experts and almost 100% correct

jn0-531 exam questions updated on regular basis

Same type as the certification exams, jn0-531 exam preparation is in multiple-choice questions (MCQs).

Tested by multiple times before publishing

Try free jn0-531 exam demo before you decide to buy it in Test-Inside.com.

Note: This pdf demo do not include the question's picture.

Exam : Juniper JN0-531

Title : Juniper FWV, Specailist(JNCIS-FWV)

1. Which two item pairs are exchanged during Phase 2 negotiations? (Choose two.)

- A. proxy-id, SA proposal list
- B. IKE cookie, SA proposal list
- C. hash [ID + Key], DH key exchange
- D. SA proposal list, optional DH key exchange

Answer: AD

2. You have entered the command

```
set ffilter src-ip 1.1.7.250 dst-ip 10.1.10.5 ip-prot 6
```

What will be the resulting output in the debug for which this was created?

- A. If the packet has a src-ip of 1.1.7.250 or a dst-ip of 10.1.10.5 or has TCP as its protocol then it will be captured
- B. If the packet has a src-ip of 1.1.7.250 or a dst-ip of 10.1.10.5 or has UDP as its protocol then it will be captured
- C. If the packet has a src-ip of 1.1.7.250 and a dst-ip of 10.1.10.5 and has TCP as its protocol then it will be captured
- D. If the packet has a src-ip of 1.1.7.250 and a dst-ip of 10.1.10.5 and has UDP as its protocol then it will be captured

Answer: C

3. You have implemented a hub and spoke VPN. On the hub, there are two tunnel interfaces, one to each spoke.

Both tunnel interfaces are in the same zone.

Which two configuration options will control traffic between the spokes? (Choose two.)

- A. Configure the common zone to block inter-zone traffic.
- B. Configure the common zone to block intra-zone traffic.
- C. Configure each tunnel interface to block intra-zone traffic.
- D. Configure one of the tunnel interfaces in a different zone and a set of policies.

Answer: BD

4. Review the exhibit.

Which two of the following elements must be configured on the ScreenOS device in order to support PIM-SM?

(Choose two)

- A. A multicast control policy
- B. A bootstrap router process
- C. A unicast routing protocol
- D. A static RP

Answer: AC

5. Which commands would you use to create a zone and make it ready to perform IP classification for a VSYS?

- A. set zone name Zone1
set zone Zone1 ip-classification
- B. set zone name Zone1 shared
set zone Zone1 ip-classification
- C. set zone name Zone1
set zone Zone1 shared
set zone Zone1 ip-classification
- D. set zone name Zone1

set zone Zone1 shared
set zone Zone1 ip-classification enable

Answer: C

6. Click the Exhibit button.

In the exhibit, what is the source IP address of the multicast traffic?

- A. 236.1.1.1
- B. 10.10.10.1
- C. 20.20.20.10
- D. 20.20.20.200

Answer: B

7. Which ScreenOS CLI command is necessary for configuring IGMP on interface ethernet0/1?

- A. set igmp interface ethernet0/1
- B. set multicast interface ethernet0/1
- C. set interface ethernet0/1 igmp router
- D. set igmp interface ethernet0/1 enable

Answer: C

8. Which three statements are true regarding IKE Phase 1? (Choose three.)

- A. Placing the SA proposal list in message 1 is an option.
- B. The digital certificate is used to decrypt the session key.
- C. The DH key exchange is used to validate the session key.
- D. The DH key exchange and digital certificates are both optional.
- E. The proxy-id is used to determine which SA is referenced for the VPN.

Answer: ABC

9. Click the Exhibit button.

In the exhibit, which two can be determined about the VPN? (Choose two.)

- A. NAT-traversal is enabled.
- B. The rekey interval is 8 hours.
- C. This device initiated the Phase 1 negotiations.
- D. The certificate used in this exchange is set to never expire.

Answer: BC

10. Click the Exhibit button.

In the exhibit, the firewall administrator at the Storefront is complaining that when the communication to the DataCenter1 fails, the preexisting transfers and applications are dropped when the traffic is switched to DataCenter2.

Which statement explains this behavior?

- A. SYN checking is enabled in the tunnel.
- B. The weight value for the DataCenter2 is too high.
- C. VPN monitor is misconfigured in the DataCenter2.
- D. Phase 1 and Phase 2 negotiations to DataCenter2 did not occur on time.

Answer: A

11. Click the Exhibit button.

In the exhibit, what is the address of the multicast receiver?

- A. 234.9.8.42
- B. 192.168.10.2
- C. 192.168.20.10
- D. 192.168.20.200

Answer: D

12. You have configured the following on your device.

```
set address trust MyPC 10.1.1.5/32
```

```
set address untrust CorpNet 10.10.0.0/16
```

```
set policy from trust to untrust MyPC CorpNet any permit
```

```
set int tunnel.1 zone untrust
```

```
set int tunnel.1 ip unnumbered int bgroup1
```

```
set ike gateway GW address 1.1.1.1 outgoing-interface e0/1 preshare Secret sec-level standard
```

```
set vpn VPN gateway GW sec-level standard
```

The VPN is not working properly. What is the problem?

- A. The policy needs to have the action tunnel.
- B. The VPN needs to be bound to the tunnel interface.
- C. The tunnel interface needs to be placed in the trust zone.
- D. The tunnel interface needs to be associated with the interface in the untrust zone.

Answer: B

13. Which command is used to verify that IGMP is running correctly?

- A. get route igmp
- B. get igmp query
- C. set igmp query interface e0/1
- D. exec igmp interface e0/1 query

Answer: D

14. During main mode negotiations a failure has occurred while using IKE certificates.

Which message pair would you review to troubleshoot this failure?

- A. messages 1 & 2
- B. messages 2 & 3
- C. messages 3 & 4
- D. messages 5 & 6

Answer: D

15. What must be enabled to protect Phase 2 key exchanges?

- A. Phase 1 PFS
- B. Phase 2 SHA
- C. Phase 2 3-DES
- D. Phase 2 DH key exchange

Answer: D

16. Click the Exhibit button.

Review the exhibit. Track-ip has failed on the device, but the device did not fail over to the second unit in the cluster:

Why has failover not occurred?

- A. The physical interfaces have not failed.
- B. The track-ip interval is not sufficient to cause failover.
- C. The track-ip address weight is not sufficient to cause failover.
- D. The track-ip address threshold is not sufficient to cause failover.

Answer: C

17. Which three OSPF parameters are interface parameters? (Choose three.)

- A. cost
- B. priority
- C. neighbor list
- D. summarization
- E. advertise default route

Answer: ABC

18. To which three ScreenOS components can a policy-based routing policy be bound? (Choose three.)

- A. zone
- B. policy
- C. interface
- D. virtual router
- E. virtual system

Answer: ACD

19. Which CLI command identifies the multicast sources visible to your ScreenOS device?

- A. get route pim
- B. get igmp source all
- C. exec pim interface all query
- D. get router trust-vr protocol pim

Answer: D

20. What must be configured differently for a route-based VPN and a policy-based VPN?

- A. proxy-id
- B. proposals
- C. remote gateway type
- D. binding the tunnel interface

Answer: D
